Many Irv. Stores To Have 3-Day Holiday

IRVINGTON YOUNG PEOPLE ARRIVE TO SPEND HOLIDAYS WITH FAMILIES

Irvington families are agog with seasonal preparations for the younger members of their family who are returning from colleges and schools for the seasonal vacation period. In spite of broken family circles, there will be many family reunions and parties for the young people.

Doris Jean Spiess, daughter of Mr. and Mrs. Carl W. Spiess, 802 Ellenberger Parkway, West Drive, returned Saturday from DePauw University, where she is a freshman Alpha Phi pledge, to spend the Christmas holidays with her parents.

Miss Melville Weesner, daughter of Mr. and Mrs. Walker W. Weesner, 53 Downey avenue, arrived the first of this week for Christmas vacation. A freshman at DePauw, she is pledged to Alpha Gamma Delta sorority.

Guardian's Home Needs Play Toys

Editor's Note: The following letter was received at the office of The Irvington Review this week. In view of the many homes where toys are more than abundant this Christmas season, we felt Irvingtonians would want to know of a great need in their own community.

Irvington Review:

As physician for the Marion County Guardians Home, I am confronted with some problems, one of which I am writing to you about. The County will make no provisions for recreation for those children in the home, and it becomes very necessary for us to provide something for those older children—boys, especially, to do. Some very bad habits are developing, and being passed on to the younger boys.

We are trying to build up a play room for nursery children and to make a work shop for the older boys. Will you be kind enough to print a little article to the effect that the home needs toys of that type, and play room equipment, and tools for shop work. We will arrange to pick up anything that any one wants to donate. Someone should have a jigsaw that he could spare. Don't you think so?

These children need all of the help that they can get, and I am greatly interested in trying to help them.

Yours sincerely,
FRANCIS C. SMITH, M. D.

COKE AS A FUEL FOR HOME USE NOT AVAILABLE

Coke as a fuel for the heating of homes, will no longer be available to the household, it has been announced by the Citizens Gas and Coke Utility. For the past several months approximately 55% of the coke output of the Utility's Prospect Street plant has been shipped to plants throughout the middle west engaged in war production and for the past eight months the Utility has been supplying the steel industry with blast furnace coke. Effective at once the entire coke output will be utilized in war work. When the present small supply of domestic coke, now in the local fuel dealers' stocks, is exhausted no more coke will be available. Utility officials are urging the public to accept the present situation as part of the sacrifice necessary for the successful prosecution of the war.

Officials of the Utility explained that there are three principal uses for coke in industry and that there

Service Men Enjoy Quest Club Room At Camp Atterbury

The Irvington Quest Club want the people of Irvington to know something of the recent project they undertook, with the full co-operation of the Irvington community, to furnish one of the recreation rooms for service men at Camp Atterbury. The need of furnishing more day rooms at the camp are so essential to the well-being and moral uplift of these fine men.

The rooms being furnished are 30x70 feet and have 11 windows. Curtains at the windows are one of the vital requirements, as they seem to be the symbol of comfort and homelike surroundings. Something substantial like a gay homespun lends itself very appropriately.

The Quest Club has furnished pianos, radios, victrolas, book cases, easy chairs, lamps, smoking stands, davenport, desks, tables, and a large dining room table with chairs to go around, used by a group of men for games.

Formerly the room was distressingly bare with only a few tables which they boys, with voluntary contributions on payday, had purchased themselves. They had enough funds left over with which to buy paint and painted the walls and ceiling themselves.

Additional furniture as ping-pong tables and pool tables are needed still.

If anyone is interested in further assisting in furnishing the room, contact Mrs. M. J. Reese, Jr. 4743; Mrs. J. H. Armstrong, Jr. 2624, or Mrs. D. R. Lindner, Jr. 5743.

Streamliners Play New Year's Eve

The Streamliners orchestra, made up of Howe and Tech high school students, will play for a dance to be given New Year's eve, Dec. 31, at 9 p. m. in Carr's hall. Both old and young are invited to hear the music of this nine-piece orchestra. Carr's Hall is a convenient location for Irvingtonians who are trying to save on gas, and the entertainment promises to be real fun for a New Year's eve celebration for both couples and private parties.

Many U. S. O. dances are played by this orchestra and the profits from the New Year's eve dance will be used to buy sheet music to play for more dances for service men.

WAR INCREASES TB BUY MORE SEALS

War always increases tuberculosis, and this year, more than ever before, we must be alert to the danger of losing some of the gains against this disease.

This message is being carried to residents of Indianapolis and Marion County through the 1942 tuberculosis Christmas Seal Sale which continues through December 24th.

"Tuberculosis is never inherited — it is always 'caught' and it spreads from the sick to the well. Persons who have the disease 'give' it to others." This statement is carried as a message to city and county residents.

It is also pointed out that "Great gains have been made in the fight against tuberculosis — thanks to the Christmas Seals which have helped to reduce the tuberculosis death rate two-thirds in Marion County during the last 30 years. But we must not lose those gains during this war period."

Citizens are being urged to buy and use more Christmas Seals this year in order that the health-building and life-saving program of the Marion County Tuberculosis Association may continue with vigor.

COKE

(Continued from page 1)
is no other fuel which can be substituted. First, iron ore as it comes from the ground must be converted to pig iron. This is accomplished at the steel mills in blast furnaces which are charged with iron ore, limestone and coke, the coke furnishing the heat necessary to reduce the ore to molten iron which is cast into pigs.

As is well known, steel is the most vital material of modern warfare because of the vast quantities required in the production of ships, guns, shells, tanks, in fact virtually everything needed in the prosecution of the war. While the bulk of pig iron production is used in the manufacture of steel, pig iron is also used for the production of iron castings for machines, and machine tools, and engines for submarines, tanks, tractors, trucks and jeeps. This is the second outstanding use to which coke is put in industry.

The third principal classification is industrial coke which is utilized in numerous industrial processes such as the manufacture of rock wool insulation used extensively for home insulation and recommended in the national fuel conservation program. Rock wool is also used for the insulation of high-flying bombing planes. Industrial coke is used in such manufacturing processes as the melting of aluminum used in air-plane manufacture; the melting and casting of brass for gears and other engine parts; by the smelting of lead used to make battery plates, etc.

These and innumerable other uses of coke in war production require the entire output of virtually every coke producer in the country. It is pointed out by Utility officials. While coke has long played a major role in industrial production, the speed-up required for a successful war effort now demands that 100% of the local coke production be diverted to war uses.

CITIZENS COKE GOES TO WAR

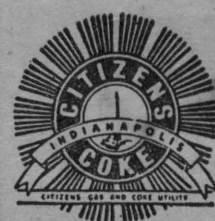

Citizens Coke as a fuel for heating homes will no longer be available. Coke joins the long list of products removed from civilian use, to prosecute the war effort successfully.

Coke is a vital war material, because no substitute can take its place in the smelting of ore into pig iron; in the production of cast iron for machine tools, engines for submarines, tanks, trucks; in the manufacture of steel for armor plate, shells, guns, tanks; in the manufacture of rock wool for insulating bombers; in the melting of aluminum for airplane parts; in the melting of brass for gears and engine parts; and in the smelting of lead for battery plates, etc. Coke you see, has been called upon to do the most vital job of its industrial history.

Please be patient with us and your dealer. Coke users accustomed to the clean smokeless heat of coke will have to use other fuels. When dealers' stocks of coke are exhausted, it may be many months before new shipments are available.

Coke in the past has done a good job of heating your home. Today, coke has its shoulder to the wheel, producing war materials. Tomorrow, when peace comes, coke will again serve you in your basement.

Citizens Coke has gone to war.

Bring Tax Papers, Registration Cards To Get '43 Tags

All Irvingtonians taking advantage of the convenience of the local branch office of the automobile license bureau, which has been opened at the Irvington Service Company, E. Washington st. and Audubon road, are urged to bring their tax papers and registration cards (on the car steering wheel) when they apply for the 1943 license tag.

Remaining open from 8 o'clock in the morning to 5 o'clock at night, Monday through Saturday, the branch is designed to save community residents the time, inconvenience and necessity of going downtown to apply for license tags or to secure new drivers' licenses.

While the gross income division of the office has been closed, the license bureau will remain open as long as it is being used, until the tag and license deadline later this year.

F.B.I. Agent Will Talk at 62 P.-T. A. Night Meeting Wed.

Nail Polish and Polish Remover

Once nail polish remover has contacted a cellulose acetate rayon garment, nothing can be done to repair the damage.

Some nail polishes themselves contain enough active ingredients to partially dissolve the yarns and make it impossible to remove the stain. The practice of some customers of using polish remover to remove nail polish stains has resulted in the loss of many good garments.

Ordinary nail polish can be removed by any reputable dry cleaner without much if any trace of its presence. Call your cleaner for advice, he will gladly help you.

COUNCIL OF CHURCH WOMEN TO FURNISH PANTRY SHELF GOODIES FOR DURATION

Mrs. Virgil Sly, president of the Council of Church Women for the city, announces that for the duration of the war this large and busy organization will furnish all the cakes and pies for the Pantry Shelf on Sunday evenings at the Illinois Street Branch of the Indianapolis Service Men's Centers, Inc.

Unless the citizens of Indianapolis stop and think of how many pies and cakes this means, this might not seem to be the super volunteer job that it is. The Pantry Shelf furnishes food for not only boys from the training centers in Indianapolis, but many hundreds of boys from Atterbury and the Waves from Bloomington.

Mrs. Hortense Rauh Burpee, chairman of the Pantry Shelf committee, working with Mrs. Royer Brown, chairman of the Pantry Shelf Committee for the Council of Church Women, have the following committee for this project. Each member of this group represents a different denomination, sometimes more than one. Each member of the individual church which is serving for a certain Sunday evening will be asked to contribute.

Methodist—Feb. and Sept., Mrs. Russell Justice; Presbyterian, Mrs. Russell Justice; Lutheran, Mrs. Russell Justice; Episcopal, Mrs. Russell Justice; Baptist, Mrs. Russell Justice; Catholic, Mrs. Russell Justice; Jewish, Mrs. Russell Justice; and others.

NO. 77 PUPILS GET APPRECIATION NOTE

Pupils of School 77 purchased two tickets to be given to soldiers in the box sponsored by the Irvington Union of Clubs for the Feb. 7 Symphony Concert. Assisted by the P. T. A., they paid for the tickets by selling coat hangers. At the concert, a member of the Symphony Committee from the Union of Clubs was handed the following letter to be delivered to the pupils:

"To the Children of School No. 77:
Please accept our sincere thanks for your generosity in affording us the pleasure of attending the Symphony Concert this afternoon.

We are from New Jersey and Oklahoma and are attending the Finance School at Ft. Benjamin Harrison. We are both interested in music.

We congratulate Indianapolis on its ability to maintain the high type of orchestra that it has. It is wonderful to know that you school children probably gave up part of your spending money in order that some soldiers who are far from home could enjoy good music.

God bless you in your fine patriotic gesture. It is for privileges such as these, that we are deeply indebted to those on the home front who are doing such a noble work. We are glad to do our part in preserving the high ideals and freedom our country stands for.

Sincerely, (Signed)
Private Elbert Wilbert
Private Clifford Jones."

Many clubs who are buying tickets are giving these tickets to service men through the U. S. O.

Robbers Ransack Eastside Residence

During a recent city dim-out the home of Mr. and Mrs. Walter Bates and Mrs. Margaret Bates, 51 Sadler Drive, was entered. More than \$1,000 was taken by the robbers, who pried open the storm window in a bedroom.

The occupants were away from the house between 7:45 and 11:45 o'clock that night. On returning they found the bedroom ransacked and muddy footprints on the floor. It is thought that a woman was among those who entered the house.

Missing articles include clothing, shotguns and a jockeyed strong box, containing stocks and bonds. There have been no further clues found as to the identity of the robbers.

The Irvington Social Study Club will meet Friday with Mrs. Harvey B. Hartsock, 59 N. Hawthorne. Mrs. G. C. Grimes will assist.

ERMINE BULLETIN SERVICE

"Brown Spots"
"Brown spots" on garments appearing after dry cleaning are caused by fruit or vegetable juices, which contain tannic acid.

These juices being split on garments do not show (tan or brown) until they are cleaned. The cleaning and drying process will oxidize such juices and produce a stain which cannot be removed without injury to color or material. To avoid this experience either rinse the juice out with clear water and dry before having it cleaned or advise your cleaner to do so.

New Jr. Music Club To Meet at Ware's

One of the newest clubs in Irvington is the Irvington Junior Music Club, which is being sponsored by the Irvington Music Club. Their next meeting will be held at the home of Mrs. Harry Ware, 949 N. Arlington ave., at 1:30 p. m. Saturday. There will be election of officers.

Mrs. Francis Helkema, sponsor, and Mrs. Richard Orton, program chairman, have arranged the program, including piano selections by Beverly Hendrickson, Virginia Jones, Robert Hoffman, Ann Jensen, Joan Tossel, Harry Ware Jr., Bobby Ware, Ted Helkema, David Williams, Patty Meek and Helen Freeland.

Barbara Cox will talk on the instruments in the brass section of an orchestra. George Richard Bornkamp, first French horn player, in the Shattuck high school band and orchestra, will be guest player. Mrs. Harry Ware will play also.

RUBINSTEIN PLAYS WITH SYMPHONY

One of the most important concerts the Indianapolis symphony orchestra has ever played will be given in the Murat tonight at 8:30 o'clock, when Pablo Seitzky, conductor, presents Artur Rubinstein, world famous Polish pianist, for his third appearance as soloist with the local orchestra.

Mr. Rubinstein, who will play two complete concerti (the Beethoven No. 4 and the Brahms No. 1), is generally conceded to be the most electrifying concert pianist now appearing before the public—not only his musicianship, but his personality is such that audiences sit on the edge of their seats to listen to and watch him. Critics, reviewing his concerts, comb their vocabularies to describe him. Richard Hays, in the Seattle Times said: "Artur Rubinstein's initials should be 'TNT' for he is nothing less than a musical bombshell that explodes sparks all over the place and fires the emotions of his listeners into a demonstrative conflagration."

In addition to the two concerti on tonight's program, which will be played by Mr. Rubinstein with orchestral accompaniment, Mr. Seitzky has programmed the Beethoven Coriolanus overture and the Brahms Academic Festival Overture, which will open and close the evening's concert.

RED CROSS CORPS. MAP FUND DRIVE

An organization of several thousand women, the Red Cross Auxiliary Corps, will conduct a county-wide house-to-house canvass to assist in the Red Cross War Fund campaign for \$715,000 to be raised during March.

Following the money-raising effort, the organization will engage in general wartime promotion of various Red Cross activities. Mrs. Ralph E. Hueber and Mrs. E. Kirk McKinney will head the new unit, with Mrs. Hueber serving as chairman during the drive. At the conclusion of the campaign, the two will serve as co-chairmen.

Work is now in progress in organizing the city on a ward and precinct basis.

James F. Carroll, general campaign chairman, has named as co-chairmen the following prominent business and civic leaders: Mr. Longworth, George S. Olive, Clyde E. Whitehill, W. C. Griffith, William H. money, William L. Schloss and Nicholas H. Noyes.

CITY BOY SCOUTS SPONSOR BLOOD DONORS CAMPAIGN

The annual Boy Scout week "good turn project" this year is taking the form of an extensive campaign to obtain blood donors for the Red Cross blood donor center in the Chamber of Commerce building.

The week of Feb. 6 to 13 has been set aside by the Indiana central council to focus attention and efforts of more than 6,000 Boy Scouts on the blood donor service for the armed forces. Armed with informative literature and registration cards the boys have been appearing before luncheon clubs, and making house to house canvasses, and staffing downtown booths in an effort to reach their goal of 8,000 potential donors.

Eight thousand donors means 8,000 pints of blood which can be processed into plasma for shipment to all parts of the world wherever American soldiers and sailors are stationed. Plasma, described as the "miracle of modern science," has saved the lives of thousands of wounded men. It requires only a few minutes to mix it with sterile water and administer it as a transfusion.

The National Red Cross has just been asked by the army and navy to provide 4,000,000 plasma units in 1943. Indianapolis is attempting to supply 1,500 units or pints, each week.

Awake, America

By A. E. WRENTMORE, Irvingtonian

Anon, across the sea's far stretch there sounds the cannon's roar. From east and west and north and south, from many a foreign shore: We hear the din of battle grim, in sea and earth and air; The whole wide world is flaming, as the nations rush to war. The Armageddon on us, and with death and carnage wide, The tyrant hordes, triumphant, assail from every side. The foe has torn his gauntlet off and thrown it in our face; Our people have been slaughtered in an onslaught, foul and base. Awake, America, awake! The hour of peril looms! Our very freedom is at stake, our country and our homes! Put off your trifling apathy, and don your armored might; To ease and pleasure bid adieu, and grapple for the fight!

Forth from the tyrant's bloody lair have come their savage swarm, To bind the world in servitude, to plunder and to reform: For years their schemes of conquest, with treacherous cunning laid, Their subtle preparation has ne'er weakened or delayed, To fill the world with misery, starvation and despair, They've planned their crimes with all the zest of murderous Corsair. With deadly implements of war, designed in fiendish mirth, They've aimed to loose the gates of hell, and subjugate the earth. Awake, America, awake! For homes and freedom rise! Behold the war clouds gathering more thickly in the skies! Before the foe, audacious, the conquered millions kneel, And we, if we should weaken, will be crushed beneath his heel.

Already these demonic hordes have won on land and sea, And swept many a vital stronghold from the armies of the free: With sneering jubilation they're exulting more and more, At the slaughter of Pearl Harbor, and the fall of Singapore. With the blasting of our commerce, quite successfully of late, They've brought the threat of total war unto our very gate. Our democratic forces, to them are but a joke, And already they imagine that we've passed beneath the yoke. America! Awake! America! Awake! This insolence repay! In freedom's cause your sword unsheath, and hasten to the fray! Columbia must be avenged, and tyrants made to cower! These mad Philistines must be crushed beneath our Samson power!

My country, 'tis no easy task that now before you lies: A struggle this of life and death, and tears and sacrifice. The treacherous foe is fierce and strong, and skillful in the strife: Inspired by ruthless dreams of gain, and reckless of his life, The path ahead looks long and dark, and rugged seems the way; 'Tis filled with battle gleams by night, and war clouds in the day. But heedless of the fearful cost, we still the storm must brave: 'Tis better far to perish all, than live a race of slaves. Awake, America! Awake! And sound the battle cry, And from a million patriot graves shall come an apt reply! In spite of pain and death and tears, and traitors fell device, Our blood bought freedom must be saved, no matter what the price!

Through every home and hamlet of this free and mighty land, Let us thrill with resolution to stay the tyrant's hand: In munition plant and factory, in shipyard, shop and store, Let us pave the way to victory with implements of war! For our heroic men in arms provide the shot and shell, And freedom's foes will soon be made to taste their own sweet hell. Let us brand as vilest traitor he who either strikes or shirks, For we only can be victorious by speeding up the works. Arise, America! Arise! A mighty task is ours! We have a foe to conquer who will challenge all our powers. In the cause of truth and freedom, with our battle flags unfurled, Let us plant them all triumphant on the ramparts of the world!

77 P.T.A. Thanks Community For Aid

The Parent-Teachers Association of School No. 77 wishes to thank everyone who helped to make the furnishing of a recreation room at Camp Atterbury a possibility.

A truck recently loaded in the many comfortable pieces of furniture, games, lamps, radios, bridge decks, books and magazines collected. The three members of the committee, Mrs. Howard Aldrich, Mrs. James W. Pleonor and Mrs. Robert Broadrick, who made the trip to Atterbury, brought back a heart-warming account of the sincere appreciation of the officers and men of the battalion using that particular room for recreation purposes.

The committee wishes to thank Joe Guldione and Dr. Silas Carr for their assistance in furnishing a truck and collection station, respectively.

Although School No. 77 is a small school, as far as it is known the P.T.A. is the only one in the city to make such a project a success.

Christian Park Women Furnish Atterbury Room

The Christian Park Woman's Club, affiliated with the Indianapolis Council of Women, has provided complete furnishings for one of the 300 day rooms at Camp Atterbury. All items necessary for comfort and pleasure of the soldiers were furnished, including a piano given by the Emerson Avenue Baptist church.

Two army trucks and details of soldiers aided in transporting the furniture. Ladies of the club assisted in arranging the room and were entertained at the camp, sampling a typical army menu.

Membership of the club is grateful to the friends who helped make the project a success.

Committee in charge included Mrs. E. B. Edens, chairman; Mrs. T. H. Ehrlich and Mrs. Lawrence Cook. Mrs. Charles Reinhardt is president of the club.

BOND QUOTA

The Marion county stamp and bond quota for February is \$3,915.620.

The "Y" Has Come To Irvington

NOT--JUST BOYS TO THE Y. M. C. A. BUT--THE Y. M. C. A. GOES TO THE BOYS

Because the Indianapolis Central Y. M. C. A. has outgrown its building, it has become the aim of the organization to bring its character-building activities to the boys in their own communities through a neighborhood branch.

Under this plan various groups of the "Y" use the local facilities, as homes, churches, parks and schools in the immediate neighborhood of the branch headquarters for their meetings, sports and activities of every kind.

Carl Alford, executive secretary of the East District "Y" with headquarters recently located at 5508 E. Washington st., is in full charge of the program provided by the Central "Y" for men and boys in the Irvington district.

Mr. Alford was graduated with a degree in religious education from Indiana Central College and later took a special course at Yale in boy's club work, thus getting a background and training for conducting a branch "Y".

Assisting Mr. Alford is Dan Lange, Miss Christina Barnes is office secretary.

TOASTMASTERS TAKE PUBLIC SPEAKING

Twenty-five eastside men are members of the Irvington Toastmasters' Club, a group interested in improving their ability in public speaking, formed three years ago.

Led by the following officers: Gerald Ganser, president; Verne Dorsey, vice-president; Kenneth Marshall, secretary; and Robert Drum, treasurer, the men held dinner meetings on the first and third Mondays of each month.

Paul Dorsey will be "toastmaster" for the next meeting Monday night.

IRVINGTON TOASTMASTERS CLUB

"Owl Club" Is Industrial War Workers' Feature

The newest organization of the branch has been formed to care for the needs of the industrial war workers. During the past year a council of Athletic Directors for six large industries has directed activities for workers as bowling, social nights and basketball. Meeting the first Wednesday of each month, the council includes representatives from P. R. Mallory's, International Harvester, R. C. A., Switzer-Cummins, U. S. Tire and Rubber and Lucas-Harold.

On Feb. 28 a bowling tournament will open at the Pritchard alleys.

Teams from the industries play basketball at Howe high every Tuesday night. A city-wide tourney is being planned soon for the war industry teams.

At the present time special emphasis is given recreation for the "swing shift" workers.

Formed recently in co-operation with the Y. W. C. A. is the "Industrial Owl Club" for both men and women meeting at midnight at the Central Y. W. C. A., 329 N. Pennsylvania st. More than 650 persons attended the initial meeting. This club provides dancing, games, and table tennis, for those who get off work at midnight when public recreational places are closed. A nominal fee for those attending covers the expense of a dance band and refreshments served later in the morning.

GRA-Y ORGANIZED FOR GRADE PUPILS

Gra-Y Clubs, including groups of fifth to eighth grade school boys—12 to 14 years of age—meet twice each week. One meeting includes sports and is held in a neighborhood gym or on a playground, while the other is held in a home or school.

At School No. 57 there are three clubs, led by Herschel Whitaker, shop teacher, John Kirkhoff and Dick Hart. Dan Langel Jr. and Mr. Whitaker are heads of the two School No. 85 groups, and Allen B. Cook is in charge of the club at

The purpose of the Young Men's Christian Association is: "To enlist men and boys in a fellowship whose primary purpose is to win boys and men to Jesus Christ, to associate them in Christian living, and to help them to discover and to accept the full meaning of Christian discipleship for their own lives and for society."

There are many boys whom we know who would like to belong to the "Y", and we hope that you might desire to arrange for the memberships of several boys or of one boy. Your interest in and support of the Y. M. C. A. East District Branch would be very much appreciated during this coming year.

Total membership in the East District for 1942 was 377 members in 18 clubs.

On Feb. 23 the groups will hold

Irv. Boys Enjoy Camp Tecumseh In Summer Season

Summer activities of the branch "Y" include a camping period at Tecumseh, located 75 miles north of Indianapolis, on Tippecanoe river. Each year a group of 60 Irvington boys enjoy outdoor life and camping experience for a 10-day period. This year the boys will go to camp the latter part of June. Supervised by cabin leaders, they follow a daily schedule built on the principle that youth learn by doing, which includes classes, swimming, all kinds of outdoor sports and crafts as well as balanced meals, necessary for the health of growing boys.

Outdoor activities are designed to meet the interests of the individual campers—to develop body, mind and spirit—to teach co-operation and group living. Trained leaders help the boys plan their programs and supervise them at all times.

COMMUNITY - SPIRITED MEMBERS OF MANAGEMENT COMM. AID BRANCH "Y"

Nineteen Irvington men acting as the committee of management assist Carl Alford, executive secretary, in the work of determining the policies and work guidance of the East District "Y".

HI-Y CLUBS UPHOLD COMMUNITY HIGH STANDARDS

Hi-Y clubs for boys 15 to 18 years of age are high school Young Men's Christian Associations. Their purpose is: "To create, maintain, and extend throughout school and community high standards of Christian conduct."

In 1942 there were four clubs with 96 members, including those at Thomas Carr Howe high school and Warren Central high school.

Virgil Heiser, chemistry instructor at Howe, sponsors the 31 members in that club, and Joe Weaver is president.

This year the boys have chosen as one of their projects the listing of all men in the armed forces who are former Howe students or teachers. They will have an Honor Roll made to present to the school and plan to correspond with each person.

(They are asking all Irvingtonians to co-operate in supplying the names and addresses of these men.)

Features of the club are the dances and social activities they sponsor, such as the "Sweetheart Dance" to be held this Friday night in the Howe gym.

Meetings are held at the school and at the Irvington Presbyterian church.

N-Y Clubs Use Local Facilities

Neighborhood "Y" ball teams are called N-Y Clubs. The 43 groups enrolled in 1942, with a 485 membership, used park facilities at El-lenberger, Christian, Brookside, Beech Grove, Keystone and Spades. During the winter months the teams use church gyms for their organized games.

Although each of the men is an active business or professional person, he gives three years of service to his community through his participation on this committee. Members are elected in three groups, which staggers the change in the committee personnel.

Now acting are: Ralph H. Johns, chairman; Edward R. Campbell, Curtis E. Cochran, Bernard L. Curry, Edward Dirks, Paul E. Dorsey, C. E. Eash, Harry Gladden, Harvey B. Hartsock, William H. Insley, Paul H. Johnson, Thomas H. Kaylor, Karl Malmgren, Garven McCutchan, Dr. H. B. Morrow, E. J. Shumaker, Firman C. Sims, George D. Thornton and Philip Zoercher.

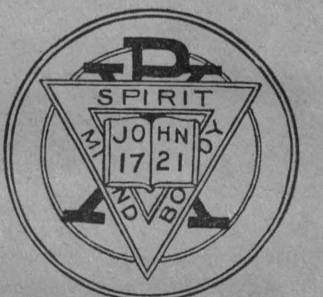

Special chairmen are Mr. Gladden, in charge of the boys work committee; Mr. Thornton, business and finance committee; Mr. Dorsey, men's work committee; Mr. Malmgren, membership committee, and Mr. Johnson, camping committee.

Athletic Assoc. Sponsors Inter-Church Sports

The East District Branch "Y" has a group known as the Church Athletic Association, which sponsors inter-church sports, leagues in seasonal sports, including soft-ball, basketball and swimming.

Last year there were 34 teams developed for organized competition in the several sports with 358 members enrolled.

In order to belong to a church team a boy must be affiliated with the church which the team represents.

Urge Teachers to Apply Now For Fall Positions

Every available person who holds, or who can qualify for a license should make application for a teaching position now, in order that information may be on file when the 1943 fall hiring season starts, according to Gayle S. Eads,

supervisor of the Teacher Placement Unit of the United States Employment Service.

"Demands will be particularly heavy in mathematics, physics, physical education, and commercial subjects at the high school level," Mr. Eads explained. "But present indications are that demand in all fields will be so great that employers will waive many of their former restrictions. Whether or not the teacher is married will not make a great deal of difference, and such considerations as age and religious preference will be forgotten."

"Many former teachers have been called to the armed services, while even more have found places in war industries," Mr. Eads stated.

For further information contact the Teacher Replacement Service which operates as a unit of the U. S. Employment Service free of charge to employ and employer.

Hearing By "Electronic Ears"
Helps Many Hold Jobs Here

Many in this community who
have been handicapped by hear-
ing difficulty for years are able
to enjoy amazingly good hear-
ing and increased efficiency on
their jobs thanks to recent ap-
plications of electronic science.

Tiny electronic tubes incorpo-
rated in small, easily wearable
units, hold the se-
cret to restoring
greatly improved
hearing, even in
seemingly "hope-
less" cases. Widest
use, however, is by
persons who had
felt their hearing
was "getting by"
without help but
now realize how

much they had been missing.
Most of the new aides are made
by Sonotone, which maintains a
nation-wide organization in 139
cities devoted exclusively to
scientific hearing correction.

A Sonotone Hearing Center,
completely equipped with instru-
ments for measuring hearing and
fitting Sonotone
aides is con-
ducted regularly in
this community by
Sonotone of In-
dianapolis, 318
Hume-Mansur Bldg
Indianapolis. A
scientific hearing
test, consultation
and fitting is of-
fered without
charge.

DEFENSE COUNCIL SPONSORS COOKING CLASSES FOR BUSY WAR HOUSEWIVES

In these days when women are taking important posts in war industries and in business, the solving of problems in running a home more efficiently becomes doubly important. Mrs. Double Duty Housewife must plan her meals and her marketing a week in advance; she must find ways to simplify meal serving and yet have tasty, nutritious meals which will satisfy the children and the men folk.

Recognizing the fact that all housewives are particularly interested in securing ideas for economical meal planning which will not deplete their quota of ration points, the Health for Victory Association is sponsoring four cooking classes in four different locations next week.

Residents of the east side may take advantage of one of the classes which will be held at Howe high school, on East Washington street, on Friday, June 25, from 7:30 to 9:15 p. m. Mrs. Gertrude Rennoe, an expert home economist, will be the instructor, and will answer questions regarding how to plan meals for a week in advance, what foods can be prepared in advance, and what to pack in a lunch box.

Other cooking classes will be held at Keith's Theater, Tuesday, June 22; George Washington high school, Wednesday, June 23, and Crispus Attucks high school, on Thursday, June 24. All classes will begin at 7:30 p. m. and close promptly at 9:15 p. m. Mrs. Anita Vogler will speak at Keith's; Miss Steda Hodahl at Washington; and Miss Virginia Carroll at Crispus Attucks. All the instructors are expert home economists and recognized authorities.

The meetings are open to the public without charge. Tickets are being distributed by business and industrial firms but tickets are not necessary for anyone who desires to attend.

A short entertainment feature will be included in the program and prizes will be given.

DAY CARE CENTERS OPENED BY SCHOOLS

Under the direction of W. A. Hacker, assistant superintendent of the Indianapolis public schools, Day Care Centers for school age children whose mothers are employed were opened Monday, June 14th, at the following schools:

School No. 20, 1849 Pleasant Run, South Drive.
School No. 3, 23 N. Rural.
School No. 10, 1255 Carrollton.
School No. 60, 30 E. 33rd street.
School No. 67, 3615 W. Walnut street.

School No. 17, 1102 N. West street (colored).
The centers are open from 7:00 a. m. to 6:00 p. m. from Monday through Saturday. A fee of 50 cents per day for each child is charged to cover a part of the cost of operating the centers. The program includes a well-balanced lunch and supervision for the number of hours of service required, according to the number of hours of employment of the mother. The parents are responsible for getting the children to and from the centers, as children will be coming and leaving on individual schedules. Each mother, at the time of the registration of a child at a center, will be given a card on which she will get a statement from her employer concerning her work.

The daily program is recreational in character and children will be given an opportunity to develop their special interests. The program provides for dramatics, rhythmic activities, games, craft work, etc., and rest periods for the smaller children. Qualified instructors are in charge of these centers and children will be well supervised the entire time they are there.

TOWER STUDIOS' CHILD OF THE WEEK

Patty Warren, daughter of Corp. and Mrs. Earl C. Warren, 440 S. Arlington avenue, on the occasion of her first Communion at Our Lady of Lourdes Catholic church, Patty will be seven years old on July 16. Corp. Warren is with the quartermasters corps, stationed in Iran.

RISLEY'S TO CLOSE WED. AFTERNOONS

Risley's Department Store will close each Wednesday at 12 o'clock noon until further notice.

District No. Plan Aids Mail Delivery

Patrons of the Postal Service should be aware that the adoption of the Delivery District Number plan of addressing all mail matter as recently announced by the Post Office Department, is and will continue to be an important factor in the delivery of their mail.

As more men are called to military services more trained postal employees leave their jobs to be filled by inexperienced employees. It cannot be expected that the Post Office will be able to maintain the present degree of efficiency under these circumstances.

Observation in the Indianapolis Post Office indicates that patrons are overlooking one of the most convenient means of notifying their correspondents of their own delivery district number because many are not using the number in their return address.

In event there is not room to insert the number between Indianapolis and Indiana in printed return addresses, it is permissible to add the number with pen or other means after the state named.

Both the street address and the delivery district number are necessary to correctly address mail to 178 cities in the United States. The greater the number of persons notified of your delivery station number, the greater the number of persons that can co-operate.

Weddings and Engagements

Former Irvingtonian

Engaged to Lieutenant Mr. and Mrs. Roger M. Beem of Ft. Mitchell, Kentucky, formerly of Irvington, announce the engagement of their daughter, Dorothy Evelyn, to Lieutenant Jefferson W. Hudson, son of Major and Mrs. C. Jefferson Hudson of Park Hills, Kentucky. Major Hudson is serving in Africa and was formerly a surgeon in Cincinnati.

Miss Beem was graduated from DePauw university May 16, receiving a Bachelor of Arts degree. She was a member of Delta Delta Delta.

Lieut. Hudson was graduated from Washington and Lee university, Lexington, Va., where he was affiliated with Sigma Alpha Epsilon. He is now aide to General George Miller at Fort Jackson, Columbia, S. C.

The wedding will take place this summer.

To Be Married July 14
Mr. and Mrs. Francis Newton Daniel, 6850 Lowell avenue, announce the engagement of their daughter, Dorothy Frances, to Lieut. Lorin Griset, of Santa Ana, Calif. The wedding will take place July 14 in the Irvington Methodist church. The bride-elect attended Butler university and Wheaton college, Wheaton, Ill. She is a member of Delta Delta Delta sorority. Lieut. Griset was graduated from the University of California at Los Angeles and is stationed at Fort Benning, Georgia.

The announcement is made of the marriage of Mrs. Olga V. Latham, 5551 Oak avenue, to C. O. Mish of Indianapolis. The wedding took place at 8:30 p. m. Saturday, June 5, at the Irvington Presbyterian church before relatives and friends of the family. The Rev. John B. Ferguson read the ceremony.

Mrs. Harry Stille Jr., wife of Capt. Harry Stille Jr., has come from Atlantic City, N. J., to visit her mother, Mrs. Reed Adair, 918 N. Audubon road.

Mrs. Loveta E. Adair and daughter, Vivian, 918 N. Audubon, and Mrs. Sarah Berry, 4923 Norwalk street, have returned from an extended trip through the West. While away they visited Private Max Berry, who is stationed at Santa Monica, Calif.

Music Club, Howe P.-T. A. To Supply Cookie Shelf Friday

The Irvington Music Club and the Howe P.-T. A. will have charge of supplying cookies for the cookie shelf at the Indianapolis Service Club this Friday. All those contributing cookies should have them at the Irvington Stewart's Book and Stationery shop before 4 p. m. Friday.

Last week a huge sheet cake was donated for the shelf by Miss Mary Friel and Mr. Petty of the Irvington Pastry Shop. It served over 70 service men.

On June 25 the Laydon Club and the Irvington Mothers' Club will be in charge of supplying the cookies.

Mrs. M. David Burgess is chairman for month of June. The project is being sponsored by the Irvington Union of Clubs.

ST. MATTHEW'S TO BURN MORTGAGE SUNDAY MORNING

St. Matthew's Episcopal church, 25 S. Ritter avenue, Irvington, will burn their church mortgage at a special celebration of the Holy Communion Sunday morning at 10:30. The Rev. Rt. R. A. Kirchhoffer, Bishop of the Diocese of Indianapolis, will be the celebrant and will preach the sermon. Seven new Altar Guild members will also be installed. The Rev. J. Willard Yoder, under whose ministry the debt was recently retired, will act as Server and the priest who was in charge of St. Matthew's at the time the parish house was built and the new debt acquired, the Rev. C. E. Bishop, retired, of Anderson, will read the Gospel.

There will be a parish basket dinner following the service at which former priests of the parish, now serving elsewhere in Indianapolis, will speak. Mrs. R. J. Pedlow is chairman of the dinner committee.

By a unique plan, war bonds were purchased through the church in the names of three families who gave the church the maturity value in cash for them, and thus the debt was immediately retired, the bonds being held by these families. An anonymous donor covered the bonds raised with a cash gift of equal value. The debt was \$5,500.00, having been originally \$5,600.00.

NEW "Y" SECRETARY MOVES TO IRVINGTON

John Turner, newly appointed executive secretary of the East District Y.M.C.A., has taken up residence at 4915 E. New York street, Mr. and Mrs. Turner have two sons, both in service, John in the army and Homer in the merchant marine. Mr. Turner's appointment to the Y.M.C.A. staff has been announced by Ralph Johns, 1107 N. Butler, chairman of the East Y Committee of Management. Mr. Turner succeeds R. C. Alford who has gone to California, where he will supervise west coast industrial recreation programs sponsored by the USO.

The new executive secretary has been in Y.M.C.A. service since June 1, 1914, and has had experience as boys work secretary, physical director, community secretary and general secretary. He served as recreational director at Camp Lee, Va., during the first World War. Mr. Turner comes from the Greensburg, Ind., Y.M.C.A. He was an elder in the Disciples church and served as Sunday school superintendent.

The offices of the East Branch Y.M.C.A. are located at 5508 E. Washington. The Y.M.C.A. serves an area bounded on the west by Shelby street, Pine street and Massachusetts avenue, on the north by Twenty-fifth street.

In his new duties Mr. Turner will supervise the Y.M.C.A. boys work program, including Gra-Y, Hi-Y, Indiana Guide, neighborhood clubs and year round recreational programs. He will assist with adult programs such as Y's men's club and Toastmasters. He will continue the extensive "Y" program of informal sports, organized athletics and other recreational activities for east side war workers.

GEARED FOR VICTORY

PUT HOARDED ODDS AND ENDS IN USE AT "BUNDLES FOR AMERICA" WORK SHOP

When the Indianapolis chapter of Bundles for America, Inc., gets through with Indianapolis housewives, their attics, closets and storage chests will be stripped as bare as other Hubbard's cupboard for the great variety of articles being made from salvage by several hundred "Bundlers" sewing for the families of our men who are fighting and getting ready to fight for our America. Some sewing for Britain is also done by workers who continue to be interested in Bundles for requirements for donations.

No good piece of material, new or old, is wasted for there are the comforts and quilts made of all sizes and kinds of materials. One size may be of cotton materials and the other of tailors' samples or pieces of suits. Afghans have been made of such samples crocheted together and from yarn scraps knitted into squares and crocheted together. Even pieces of old kid and leather gloves, purses and brief cases and the like, as well as soft felt hats, have been collected and sewn on heavy canvas flannel for windbreakers to be worn under service men's coats.

Several of these have been made in the shop's sewing room, but more sewers are needed for these garments.

New materials are also used, all kinds of garments for women and children and for baby. The organization will pay half of the workers' bills for sewing materials and issue a permit for the purchases at a wholesale house. A very little money can be made to go a very long way.

All work is done by volunteers except an office secretary. Funds for office expense, shipping and materials, are raised through membership fees and donations, 15 per cent of which is sent to New York Headquarters for overhead expense and to pool for yarn purchased at wholesale.

The shop is at 120 Monument Circle.

NEW CAMPAIGN TO INCREASE PAYROLL WAR SAVINGS

Marion county's payroll savings war finance committee is swinging into action with the rest of the state and nation on a new campaign designed to increase payroll war savings by establishing a quota for each store, office and factory employing 100 or more.

Announcement of the campaign, in which officials and labor will be asked to co-operate to obtain investment of every spare dollar in war bonds, was made by Carl F. Maetschke, payroll savings chairman of the Marion county war finance committee.

"Each of us in going to be asked to figure it out yourself," said Mr. Maetschke. "We're going to be asked to sit down, figure out how much money we have to spend for taxes, food, clothing, insurance and whatever else we must pay, and then set aside the rest for bonds. And it's Uncle Sam who's asking us to do it. . . it's Uncle Sam and our own soldiers, sailors and marines who need more and more money for invasion in order to end the war as quickly as possible."

Mr. Maetschke explained that personal calls would be made on all firms employing 100 or more by the nearly 80 members of the payroll savings committee.

The OCD speakers bureau is sponsoring the luncheon Friday for Mr. Grew.

IRVINGTONIANS ASKED TO VOLUNTEER FOR WORK ON NO. 3 RATION BOOKS

If more volunteers are not forthcoming to aid in the tremendous task of processing 3,000,000 No. 3 ration books, there is danger that thousands of Indiana citizens will not have their ration books in sufficient time, according to a statement issued this week by Mrs. Clifford Hart and Mrs. Ralph K. Wheeler, chairmen of the Volunteer Placement Bureau of the Marion County Civilian Defense Council.

Mrs. W. D. Keenan, chairman of District 11 which includes Irvington, is particularly anxious that as many Irvington residents volunteer as possible, and that organizations and neighborhoods make up small groups to work at the Mailing Center. Those desiring to volunteer may call her at her home, Ir. 0446, or go direct to the mailing center.

It is estimated that at least 800 volunteers a day are needed, or a total of 4,500 volunteers a week for the next six weeks, to sort ration book applications, stuff envelopes, or write names on ration books. The Mailing Center is located on the third floor of the Century Building, 36 S. Pennsylvania street, and is open from 9 in the morning until 10 at night during week days and from 9 a. m. until 5 p. m. on Saturdays.

Clubs, church groups, business firms and all types of organizations are urged to aid in recruiting their members to give of their spare time. Every person who has a few spare hours is asked to go to the mailing center where they can be put to work immediately. Those who prefer to work regularly may call the Civilian Defense Office, R. 2541, and state the days and hours they wish to serve.

Civilian defense district chairmen and block workers have been calling volunteers for the past week but the need is so great now that direct appeals are being made through newspapers and radio announcements. Daytime workers are particularly desired and girls and boys over 15 years of age are invited to come in and help.

The hours served by volunteers count on the service record kept by the Marion County Civilian Defense Council, and those serving 100 hours are eligible for the Civilian Defense pin. Civilian defense district chairmen receive credit for the number of volunteers in their districts.

It has been pointed out that citizens can perform a real patriotic service on the home front by helping to process the ration books for it means a saving of manpower as well as of taxes; also the saving of much time since ration book applicants will not have to journey to neighborhood centers to get their books.

Schools Can Help Children's Summer Vacation Program

Suggesting two ways in which schools may give timely service this summer in helping to keep children off the streets and occupied, Dr. Clement T. Malan, state superintendent of public instruction, in a bulletin to all city and town superintendents of schools, calls for co-operation of schools in offering the use of their motion picture projectors and auditoriums to the council of defense, and the continuance of the school shop project of making model airplanes for the government.

"With problems of juvenile delinquency and the care of children of working mothers increasing, we are suggesting two ways in which schools may give timely service this summer in helping to keep children occupied and off the streets, while at the same time giving them instruction concerning the war effort," Dr. Malan says.

Pointing out that the State Department of Education, the four state colleges and the State Defense Council are all represented on the Indiana War Films Council (for distribution of war and defense films owned by the state or loaned by federal agencies) and that most school superintendents are members of their county or city O.C.D., Dr. Malan suggests: "It would seem appropriate for schools to offer the use of their projectors and school auditoriums for showing these films during the summer. Besides aiding the war effort, such gatherings would provide recreation for idle children or adults, off duty from their work."

The second suggestion pertains to the continuance of the school shop program for building model airplanes for the government. "Both to keep the children of working mothers busy in making something interesting and to help supply these models to the government in the quantities desired," Indiana was the second state to reach its quota of A. B. and C models, but now a new quota has been undertaken, Dr. Malan asserts.

By removing buttons, buckles and ornaments from articles of clothing before bringing them to be cleaned.

When these are left on, our makers must make special notes of such things, remove them and keep them in separate envelopes, and then the assembler and inspector must make sure such ornaments are in place again before the garment leaves the plant. Listen to Morgenthau-Marshall Tell Power of Payroll Savings!

Washington, D. C.—How important is the average worker's war bond purchases out of his pay every payday in the grand strategy of the Allied High Command? Does the extent of his or her War Bond allotment have a part in determining when, where and the strength of our military blows?

Any worker listening in on a recent conversation between General George C. Marshall, President Roosevelt's Chief of Staff, and Secretary of the Treasury Henry Morgenthau, Jr., learned the answers to these questions.

Said General Marshall: "Mr. Secretary, I want you to answer George C. Marshall a question for me and to answer it with complete frankness. Can we military leaders plan to fight this war in an orderly way—in the surest and most effective manner—or must we take extraordinary risks for fear the money will not hold out?"

Replied Secretary Morgenthau: "General, the American public will take care of that. What they have done in the Second War Loan drive—the money they have produced and the spirit they have shown—is proof enough for me that they will not let our fighters suffer from lack of support until we achieve complete victory, no matter how long that may be or how much it may cost."

Up your War Bond allotment out of your wages today. Figure it out for yourself how much above 10 per cent it should be.

At Clapp Brothers Market "Banana Flakes" may be purchased in four ounce containers and the simple directions for making the ice cream are printed on the package. These flakes may also be used in milk for a summer drink, with cereal or as a baby food.

The program will be under the supervision of John Turner, executive secretary of the East branch "Y," and Herve Sewell, aquatic director for the Central Y.M.C.A.

Instruction will be given from 1:00 to 2:30 p. m. daily at the Central "Y" pool. The "learn to swim" program has been arranged so that boys will be instructed in small groups insuring individual attention and the greatest possible progress. The local "learn to swim" program will be conducted along the lines perfected by nationally known "Y" aquatic leaders and used by Y.M.C.A.s throughout the nation. Progress tests will be given after a week's instruction and it is expected that boys who attend all five classes will be able to pass the beginning swimmers test.

Enrollment in the class may be arranged by phoning or stopping at the Y.M.C.A. office, 5508 E. Washington, Ir. 9100, or at the Central Y.M.C.A. building.

Methodist Bible School Has Closing

A procession opened the event. Flag bearers led with the Christian and American flags, followed by the salute to each, led by Bill Harvey.

Dr. Alexander Sharp will be the guest preacher at the Irvington Presbyterian church while Dr. Ferguson is taking his vacation during the month of July. Dr. Sharp was enjoyed by members of the congregation during Dr. Ferguson's vacation last year.

YODER TO SPEAK AT UNION SERVICE

The Rev. Willard Yoder will be the speaker at the Union Evening Service to be held on the lawn of the Downey Avenue Christian church at 7:30 o'clock Sunday evening.

Display the Flag on July 4th

Let's have it flying from every home in Irvington on July 4th. Hang it out on your porch, fasten the staff to a window ledge, or if you are so fortunate, raise it to the top of the pole in your yard and let it wave against the blue sky or against the gray clouds. Raise it at sunrise and tenderly lower it at sunset—the stars and stripes, now the symbol of a fighting nation of free people, and always, since first unfurled, the banner that has brought promise throughout the world, of "life, liberty and the pursuit of happiness."

Americans scattered all over the world will herald this July 4th not as a day of celebration but rather as a day of renewed effort and reaffirmed determination to keep the ideals of Freedom of Speech and Religion, Freedom from Want and Fear in our hearts and imbued in the heritage of our children.

INDIANAPOLIS KEEPS PACE WITH EASTERN CITIES' OCD METHODS, SAYS YOCKEY

Indianapolis civilian defense is keeping pace with the best OCD methods employed in large eastern cities, according to Harry E. Yockey, city civilian defense director.

Mr. Yockey returned June 24, from conferences with Dr. James M. Landis, national civilian defense director and with other OCD officials in Washington, D. C. and Philadelphia.

In addition, he talked to army officer officials and obtained a general picture of eastern methods of defense against air raids.

"Our eastern coast is well protected," said Mr. Yockey. "Interceptor planes and balloons along with anti-aircraft guns guard us from Maine to California. There was a general feeling among army men and civilian defense officials that the coast line and cities are well protected and that the Coast Guard is in a position to give information at an early date on the approach of planes for a distance of several hundred miles."

In Washington Mr. Yockey found that some of the standard OCD procedure was not practical for the district, and that those in charge had made changes to suit the situation. He is of the opinion that each city must work out many problems in its own way and that Indianapolis will have to develop individual approaches to many civilian defense problems.

In Philadelphia Mr. Yockey conferred with Judge H. S. McDervett, executive director of civilian defense for the city.

One feature about Philadelphia civilian defense, Mr. Yockey said, was the way in which a spirit of friendly competition had been in-

Family Budget Should Include Bond Purchases

Nearly a million Indiana workers today were being asked by the Treasury's war finance committee to figure out for themselves how much they can invest regularly in war bonds on a family budget basis and to put bond savings in the No. 1 spot on their budgets.

The Treasury campaign, which began Tuesday, June 15, will reach a crescendo within the next three weeks in the face of the July 1 start of collection of the pay-as-you-go tax.

"Timing of the drive to coincide with the start of pay-as-you-go taxes is entirely intentional," said Eugene C. Pulliam, state chairman of the war finance committee. "Every worker will now know exactly how much he will have to pay in taxes . . . can include that amount when he makes up his family budget with his wife, and is being asked to invest every dollar over the amount for necessary living expenses in war bonds."

"Pay-as-you-go taxes will do much to stabilize the payroll savings war bond program."

To help workers understand the pay-as-you-go tax as they are asked to increase war bond investment to meet quotas that have been assigned every Hoosier store, office and factory employing more than 100, the war finance committee has listed three points for consideration:

1. Taxes and savings are widely different. What you pay out in taxes is gone forever . . . what you save in war bonds is yours to keep and to use as you see fit after the war is over, or for personal emergencies during the war.

2. The pay-as-you-go tax is not a new tax. It's the same income tax you are paying now, made easier to pay because everyone can now keep current on the "made-in-America" installment plan. It replaces lump payments of income tax on the old and outdated annual or quarter-annual basis.

3. Pay-as-you-go taxes have been labeled a 20 per cent tax. This is incorrect. No worker will pay one-fifth of his income. The levy is 20 per cent of taxable income.

The example cited by the war finance committee is a worker at \$60 a week with three children. This worker pays \$4.80 each week instead of a large lump sum next September 15.

The worker at \$60 per week with two children pays less than \$6.

During the Treasury's payroll savings campaign, each worker will be given a budget booklet called "Figure It Out Yourself," and will be asked to set down all the necessary items of expense, total them, then subtract them from the family's combined income. He will then be asked to turn the difference between what comes in and what must go out into war bonds under the payroll savings plan.

Yoder Conducts Summer School Course At Camp

The Rev. and Mrs. J. Willard Yoder and family are at Camp Mack, Milford, where the Rev. Mr. Yoder is conducting a course in one of the Indiana Pilgrim Fellowship summer schools of the Indiana Conference of Congregational and Christian churches.

Fergusons To See Son

Dr. and Mrs. John B. Ferguson will leave Friday morning for Washington, Pa., where they will visit their son, John, who has been in the army since last August without furlough. He is now in the University of Pittsburgh. They will spend two weeks with friends at a summer cottage on Twin Lake at Howe, Ind., and a few days at Camden, Ohio.

Mr. and Mrs. Curtis Seiglin of Bogalusa, La., are visiting Mr. and Mrs. Forrest E. Dukes, 5471 Julian.

Mrs. Albert Romans, 424 N. Riley, retiring president of P.T. A. of School 58 entertained her board members with a bridge and bunco party Friday, June 25.

STORES TO CLOSE MONDAY

Most Irvington stores, drug stores excepted, will be closed all day Monday, July 5, because of the Fourth of July holiday.

PROGRAM FOR ARMY RELIEF FUND TO BE GIVEN SUNDAY P. M.

An Independence Day program will be held for the Army Emergency Relief Fund at Victory Field in Indianapolis, July 4 at 8:30 p. m.

A full evening of entertainment has been planned including fireworks, military display and vaudeville acts. Gates at Victory Field, on W. Sixteenth street, will open at 6:30 p. m.

Two thousand box seats have been reserved for sale. Ten thousand grandstand and bleacher seats will not be reserved in advance.

The 11th District of the American Legion, who is sponsoring the show, will turn all proceeds over to the Army Emergency Relief Fund which is organized for the purpose of giving immediate financial aid to soldiers, their dependents, honorably retired or discharged soldiers and their dependents and the dependents of deceased members of the army of the United States. It acts promptly, cutting all red tape in the process and is a worthy cause to receive support from the public.

Funds are allocated by Army Emergency Relief headquarters direct to commanding generals of corps areas, who in turn, allocate funds to commanding officers of posts within their command. The organization does not solicit funds from the general public. It does obtain funds through entertainments, exhibitions, memberships, gifts and through the Red Cross and Army Relief Society.

AUX., DRAMATIC CLUB TO FURNISH COOKIES

The American Legion Auxiliary and the Irvington Dramatic Club will furnish cookies this Friday for the Service Men's cookie jars. Mrs. Walter H. Montgomery is chairman of the project for the month of July.

The cookies are to be delivered to Irvington Stewart's store by four o'clock Friday afternoon. Sugar and shortening to be used in the making of the cookies may be obtained at Dirk's Grocery, 5524 E. Washington street.

Cookies are the most popular food at the Service Club and anyone wishing to contribute is welcome to do so.

On July 9 the Irvington Tuesday Club and the P.T. A. of school No. 57 will be responsible for filling the jars. The Union of Clubs is sponsoring the cookie shelf. Irvingtonians have done a splendid job, and they are being asked to continue their grand work through the summer, when so many service men enjoy the hospitality of the Indianapolis club.

TRANSITION

Where's the kid that left clothes in a heap on the floor, Tossed, with ball-practiced hand, his hat high on the door; Lounged in attitude sprawling — his feet on the spread, While a pyramid of apple cores grew near his bed?

He's now in a barracks, the floors spotless and bare, With cots all in a row, and not one wrinkle there. His belongings are "stowed" out of sight in some space, Not a tie nor a sock can be seen on the place.

Where's the kid with face grimy, but wearing a grin, Hair that looks like the place some birds nested in; With a buttonless shirt, and his pants such a fright That they stand up alone when he sheds them at night?

Now he stands at attention, clean and hair brushed with care; In his face there's a grim sort of serious air. His blouse buttoned neatly, his shoes—how they shine; By golly! I'm proud of that youngster of mine.

Where's the kid who once sported a broken down car, Whose engine announced its approach from afar; Who turned in the garage with wild reckless swing, Scattering nail kegs, rakes, shovels and every old thing?

He now drives a Fortress high up in the blue, He can soar quickly up and can down spiral, too, He can fly in formation as close as they please, He can make a drop landing with the greatest of ease.

Yes, Old Uncle Sam, they may say what they can, I loaned you a boy—and you gave me a man!

Katherine F. Schornstein, 814 N. Bolton avenue.

Aviation Cadet Harry Schornstein, son of Mrs. Schornstein, is with the Navy Air Force at Corpus Christi, Tex. He entered the service on January 7, 1943, and took training at Iowa College and Oakland, Calif.

HOME STUDY CLUB ANNOUNCES PROGRAM

The Irvington Home Study Club has chosen the following quotation from Emerson to guide its members in their cultural and educational program for the coming club season:

"A house shall bear witness in all its economy that human culture is the end to which it is built and garnished."

Officers who will lead the club include: Mrs. James R. Loomis, president; Mrs. Charles C. Baker, vice-president; Mrs. Francis H. Insley, secretary, and Mrs. Henry S. Schell, treasurer.

The program committee is comprised of the Mesdames James M. Zoercher, Donald F. Lafuze, Mark H. Reasoner and Ronald R. Scott. A president's day luncheon on Oct. 5 will open the year's program. On Oct. 19, members will hear a review of Harold Ickes' book, "Autobiography of a Curmudgeon."

"The Life and Works of Composer George Gershwin" will be discussed at the Nov. 2 meeting, followed by a Christmas party on Dec. 7.

The topic of the first meeting in 1944, on Jan. 4, will be "Canada, Our Neighbor to the North." On Feb. 1 the contributions of two patriots—Stephen Vincent Benet and George M. Cohan—will make up the program.

On March 7 "The Romance of Insignia" is scheduled and a review of Irving Stone's book, "They Also Ran," will be given on April 4.

"Figure It Out Yourself" Plan Goes Into Effect

Despite the new system of collecting income taxes, a campaign to step up war bond payroll savings is now moving ahead swiftly in 282 of the biggest industrial plants, stores and offices in Indiana. It is a campaign that asks the nearly 250,000 employees in those plants to "figure out for themselves" how much they can put into war savings on a family budget basis.

Called by the Treasury Department the most important step in the entire anti-inflation war savings program, the campaign will, before September, touch more than 1,000,000 Indiana workers. At present only the 829 firms employing 100 or more are being asked to conduct drives.

A state honor roll of "First Firms," the first concern in each county that reaches dollar quotas assigned on the basis of increasing over-all payroll savings in the state by 50 per cent, has been announced. The Eli Lilly company of Indianapolis was the first Hoosier firm "over the top" on the quota set for it in the new drive.

Surprisingly, the new method of income tax collection which deducts a sum from each pay check, is working in favor of rather than against increasing payroll savings.

"Most employees were pleasantly surprised at the deductions made for income tax from their first pay checks of the month," said Mr. Hoover. "It has not been carefully explained that the deductions are based only on taxable income and that the net amount of deduction is 20 per cent of this taxable income less what formerly was taken out under the 5 per cent Victory Tax. In all cases the Victory Tax is included in the new income tax deductions."

"The new collection method also will end periodical increases in cashing bonds by eliminating quarterly or annual payments of income tax in lump sums," said Mr. Hoover. "We are convinced that this method of tax collection will stabilize the whole war bond program."

The "Figure It Out Yourself" campaign to increase payroll savings is based on the increased need for government borrowing in order to provide for soaring costs of offensive war—sustained invasion on all fronts.

AMERICA'S TOWN MEETING OF THE AIR TO BE BROADCAST FROM MURAT AUG. 5

Through the purchase of a War Bond you may get to see one of America's most popular network radio programs go on the air August 5 at the Murat Theater. America's Town Meeting of the Air is the program and the bonds must be bought through member organizations of the Marion County League of Savings and Loan Associations to get tickets.

The program as presented here will be sent to the Blue network of 127 stations and everyone will find something to cheer and something to boo as two European-born journalists and educators discuss "Should European Nations Retain Their Prewar Boundaries?"

"The National Heckle Hour," as the program has been nicknamed, was begun in May, 1935, by George V. Denny, Jr., who has continued as its moderator since. On the air all this time without a commercial sponsor, the program remains on its merit alone for network management would not hold open a valuable Thursday night hour did not the program really click with the public.

Seats for the broadcast will be apportioned according to the denomination of bonds bought, ranging from \$25 to \$1,000 in maturity value. Members of the Savings and Loan League are: Arsenal Building and Loan Association, Atkins Savings and Loan Association, Celtic Federal Savings and Loan Association, Colonial Savings and Loan Association, First Federal Savings and Loan Association, Fletcher Avenue Savings and Loan Association, Indiana Savings and Investment Company, Insurance Savings and Loan Association, Peoples Mutual Savings and Loan Association, Railroadmen's Federal Savings and Loan Association, Shelby Street Federal Savings and Loan Association, Turner Building and Savings Association, and Union Federal Savings and Loan Association.

Dr. Lengyel, Hungarian editor, and Prince Hubertus, journalist, will be the two speakers.

Audience interest in the program, of course, rises to highest pitch when the question period opens. Contrary views will be heatedly expounded by some of the more vocal members and pointed questions will come from those seeking wider information on the matter of postwar boundaries in Europe. Several Indianapolis and Indiana citizens will be appointed assistant moderators to help direct this part of the program and to see that no one gets beyond the limits of good taste and reasonableness.

Arrangements have been made to have the theater cooled for the performance so a comfortable as well as enjoyable evening is in prospect.

CITY NEEDS WOMEN FOR DEFENSE JOBS

Indianapolis faces the problem of finding thousands of additional workers to keep its war plants producing at top speed and capacity and other business establishments operating in a manner to meet the needs of the community.

The Citizens Manpower Committee, which is conducting a campaign to recruit workers to meet this emergency, asserts that if a critical manpower situation is to be averted women will have to volunteer in large numbers to take paying jobs in business and industry.

John A. Reis, chairman of the committee, pointed out that the armed services, war plants and other demands have virtually drained the community of available men workers.

"For this reason," said Mr. Reis, "we must depend largely on the women to help out in the emergency. We appeal to housewives, to young women who have finished school but are not yet employed, and to older women who may feel they are past the age limit to be eligible for employment, to register for paying jobs. By doing so they will be making an important contribution to the war effort."

Mr. Reis said that many women prominent in various phases of community activity who have never worked outside their homes and who are independent financially have accepted paid employment in war plants, offices and stores. It is estimated that at the present time approximately 40,000 women are working in industrial plants of the city, and the general verdict of employers is that they are giving splendid satisfaction.

Men and women and youths who are not now employed and who are willing and able to work are eligible to register for employment. Employed persons will not be considered as applicants, and women who have children less than 14 years old will not be accepted unless assurance can be given that relatives are prepared to care for the children.

Persons who are eligible are urged to register at the earliest possible time at the recruiting headquarters, 20 N. Pennsylvania street. The office is open every week day from 8 a. m. to 5 p. m.

To Identify Future Army Fliers

Young men of 17, who volunteer and are accepted for enlistment in the Air Corps Reserve, will be presented with this official Air Corps lapel button to be worn with civilian dress while they are on an inactive status, the United States Army announces. The new badge, which will identify its wearer as a member of the United States Army Air Forces, is silver-finished with a blue enamel center. Upon reaching the age of 18, the young Air Corps Reservists will be eligible to begin their preflight training. If they are high school or college students at that time, their call to active duty may be deferred until the end of the current semester, provided it is completed within 6 months after they reach the age of 18.

Do you know a fellow like Joe?

JOE'S my kid brother. We've always stuck together and I've sort of watched out for him these last few years.

Well, Joe's in Africa now. His wife gets her allotment from him, and I guess when that's taken out of his check he doesn't have much left. Privates don't get paid much you know.

I figure this way. Here I am, making more money than I ever did before. You bet I work for it! I work hard. But Joe's working hard too ... and not just from 7 to 5, either.

We've been taking 10 per-

cent out of my check every week for War Bonds ... they're going to come in mighty handy when the War's over, we figure. But I got to thinking about Joe. What's he going to have after the War?

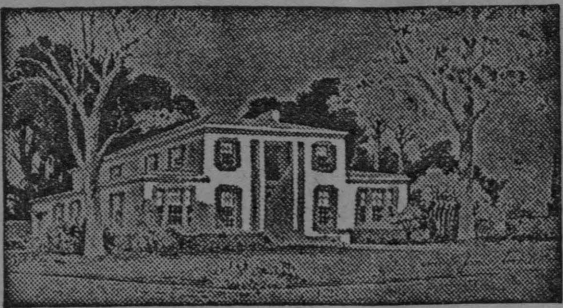

So we talked it over, my wife and I. We think Joe should get a cut of the bigger money, too. So now I'm buying an extra bond every month—in Joe's name.

Maybe you've got somebody in the War, too. If you have, couldn't you squeeze out an extra bond now and then, for your "Joe"?

Jap Surrenders To Ride In Jeep

Many anecdotes come from the war zones these days, as boys are returned to the homeland for rest or hospitalization. This tale, reported by C. J. Gleeson, a Marine Corps combat correspondent, is a good example.

It is the story of a Jap sniper who surrendered just to get a ride

in a jeep! A SEABEE was cleaning his rifle during the height of the Guadalcanal action, when a voice from behind said in perfect English: "How would you like to have a Jap sniper?"

Without turning his head, the unsuspecting SEABEE answered: "Boy, I'd love it! I'd shoot the so-and-so!"

"Well, here's one," came the voice and when the SEABEE turned and saw what was standing beside him he struggled to get the bolt back in his rifle, jumping up and down and yelling: "He's a Jap! He's a Jap!" in his excitement.

Help came immediately and the voluntary prisoner was hustled off to a concentration camp in a jeep, to his wishes. Later, according to the correspondent, the Nip asked for a job as driver of a jeep.

The story might have been funny except for the fact that he was wearing a United States Navy SEABEE uniform when taken, which is anything but amusing when one speculates on how he acquired that uniform.

Men desirous of making application for the SEABEES, the Navy's "Can-Do" branch of service, should contact their nearest Navy Recruiting Station for information.

**BETTER

APPLIANCE
CARE**

DON'T WASTE ELECTRICITY
—EVEN THOUGH
I WORK FOR
LOW PREWAR WAGES

Don't sacrifice the use of your Electric appliances through carelessness and neglect. Having to revert to slow, old-fashioned hand methods is certainly not helping to win this war. It's your patriotic duty to keep your Electric appliances in service by giving them the very best of care—then you'll continue to have time and energy for your war activities and complex household duties.

Keep your Electric appliances clean, but never put them in water. All motor driven appliances should be oiled and lubricated regularly according to manufacturer's instructions. Be careful and never let appliances drop. Cords with frayed or broken insulation should be repaired at once. Don't tinker with appliances unless you know what you're doing. At the first sign of trouble take to a reliable serviceman—for if you wait, it may be too late.

MONUMENT CIRCLE PROGRAM SEPT. 9 TO OPEN CITY 3RD WAR LOAN DRIVE

Indianapolis and Marion county planned today to go all-out to reach a \$70,000,000 Third War Loan goal during September—a quota that is nearly a third of the state's biggest-in-history war bond assignment of \$257,000,000.

War finance committee officials—Chairman William C. Griffith and Vice-Chairman Bowman Elder—enthusiastically announced a program that begins with Sept. 9, "Attack Day," opening day of the drive, when Monument Circle will be the scene of a double "war dance" on both the north and south levels.

On Wednesday, Sept. 15, Father Flanagan of Boys Town, Neb., will come to Indianapolis for a rally. Backbone of the big drive in the county and in other towns and cities of the state will be the Civilian Defense house-to-house bond sales crusade starting Sept. 9.

Every man and woman who signs a bond order will get from his OGD "block buster" or his farmer neighbor a lapel tag emblem in the shape of a bomb, reading: "I Back the Attack, 'Third War Loan'."

All homes and buildings will fly or display the flag on opening day, "Attack Day."

Meanwhile, bankers, business men and securities and investment salesmen will be making their own calls on large individual investors and corporations.

Retail stores, from the corner grocery to the biggest department stores, will carry on a big bond sale. Theaters, too, have joined in the all-out effort to help Uncle Sam borrow "invasion dollars."

At the Monument "war dance" two orchestras will play and it will be a 10-cent war stamp a dance, or dancing all evening for one war bond purchase.

The monument itself will be open at night for the first time since World War I, and those who invest in \$100 bonds will ride to the top free to see the city neck-laced with lights despite the war.

Army jeeps will deliver war bonds to doorsteps on telephone call order during the "war dance."

The "Victory number" will be L. 8401, and 15 girls will take bond orders at any extensions. If Uncle Sam's phone customers order a \$100 bond, when it's delivered they'll be driven from their homes to the Monument for their free ride to the top.

Sales of series E, F and G war bonds from Sept. 1 will be counted against quota.

Club Celebrates Third Anniversary At Dinner

In celebration of the third anniversary of their organization, members of the Quenest Club held a dinner at the Columbia Club last Saturday. Following the dinner an election of officers was held by the members, the Misses Jane Gosson, president; Mary Frances Patterson, secretary; Ruthanne Gosson, treasurer; Mary Frances Kelly, publicity chairman; and Peggy Rose, Natalie Borreson, Patty Deiks and Fannie Kimmich of Cleveland, O., formerly of Indianapolis. Last Thursday Miss Rose entertained club members with a supper meeting in honor of Miss Kimmich, who returns to Cleveland next week after spending three weeks here.

Jar Of Waste Fats—Ladies' Ticket To Ball Game Sept. 10

Irvington housewives who enjoy a good baseball game will get a free ticket to see the Indianapolis Indians play the Columbus Redbirds at Victory Field on Friday night, September 10, if they bring along a can or jar of waste cooking fats.

The regular Ladies' Night bargain rates will be discontinued for that night, and only ladies who bring along the salvage fats for the war effort will be admitted free. All other ladies must pay the regular admission price to see the game.

Al Schlensker, secretary of the ball club, hopes to see a record-breaking turnout for that night because the several thousand cans of waste fats collected would play a valuable part in the making of gunpowder, sulphur drugs, soap and other material needed to insure victory.

A group of OGD women volunteers will be on duty at Victory Field to collect the fats and place them in containers which will be hauled away from the park during the game by John Wachtel, local rendering plant.

General chairman for the event are Fred Phillips, Marion County salvage chairman, and James Clements, Junior Chamber of Commerce salvage education committee chairman.

DON'T WASTE ELECTRICITY- EVEN THOUGH I STILL WORK FOR MY LOW PRE-WAR WAGE

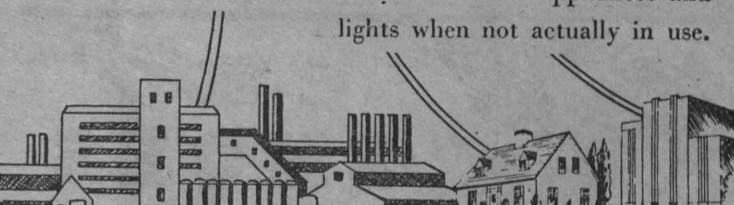

It is very easy to waste anything that is very cheap in cost—and Electricity is no exception. However, there's a war to win and now is no time for waste.

Today, as in the past, there is plenty of Electricity to serve your known needs in home, office, store and industry alike. But in an effort to save fuel, transportation, and manpower for Uncle Sam, we're asking you not to waste Electricity so we can help the other fellow who is also carrying a terrific war load.

Use what Electricity you need . . . but avoid waste by turning off your Electric appliances and lights when not actually in use.

Services Held For Col. David Burgess

(Continued From Page 1)

Col. Burgess, a native of Wisconsin, received his first commission in the army in one of the first officers' training camps held at Ft. Sheridan, Ill., in 1917, and soon after the United States entered World War I. His active interest in military affairs continued until his death.

Col. Burgess served 23 months overseas in World War I with the 30th division, receiving the Purple Heart citation for being wounded in action at the Battle of the Somme. He rose to captain and following the war took an active interest in the officers' reserve, rising to Lieutenant colonel.

He was called back into active service early in 1941, and went to the armored force headquarters at Camp Knox, Ky. With the organization of the 4th armored division early that year at Pine Camp, N. Y., he became its inspector general, a post he held continuously until his death. The division only recently went to Camp Bowie after several months spent on desert maneuvers in California.

At the time of his call back to service he was a member of the commercial department faculty at Technical high school, a position he had held 23 years. He served one year as football coach at Tech. He was a strong advocate of military training and was one of the leaders in the organization of former service men serving on the Tech faculty.

He was a native of Elmwood, Wis., and attended River Falls (Wis.) Normal School and the University of Wisconsin. He was a star fullback and center at River Falls Normal School and also played on the 30th division football team in the American interdivision contests overseas in World War I.

Col. Burgess was a member of McVaine-Kothe American Legion Post, Irvington Masonic Lodge, the Reserve Officers' Association, the Sojourners Club and St. Matthew's Episcopal church.

Survivors, besides the widow, are a son, Lieut. Bruce Burgess, of the Army Air Corps, who is on active duty in the North African

WORKERS ASKED FOR WAR FUND DRIVE

The recruiting of volunteer workers for the \$2,000,000 United War Fund campaign has been most encouraging, it is announced by leaders in the drive.

Approximately 2,000 of the 5,000 volunteer solicitors already have been enlisted and the personnel in several of the divisions has been completed. The drive opens Oct. 25 and closes Nov. 9. The "one for all" campaign is for the support of those in the armed forces, for civilians of the Allied nations and for needs on the "home front" in Indianapolis. Sixty-eight organizations are included.

The united campaign is for such groups as the USO, the War Prisoners Aid, United Seamen's Service, Bundles for America, the Jewish Welfare Fund, the 37 agencies of the Indianapolis Community Fund and the Marion County Civilian Defense Council. In addition it is for such Allied war relief agencies as the British War Relief, United China, Greek War Relief, Polish War Relief, Belgian War Relief, Russian War Relief and the French Relief Fund.

Business, labor and civic groups have endorsed the campaign and it is pointed out that one of the important purposes of the drive is to avoid a multiplicity of "appeals" as none of the 68 agencies will conduct separate campaigns here.

Emergency Methods Demonstrated By 11th District O.C.D.

The 11th District O.C.D. office, headed by Duke E. Hanna, coordinator, and Mrs. W. D. Keenan, assistant coordinator, held a demonstration of civilian defense methods in front of the new office at 10 Johnson avenue last Sunday afternoon from 2 to 4 p. m.

An imaginary air raid took place causing damage to two buildings. C. L. Nihiser, chief auxiliary fireman; Dr. C. E. Donnell, chief air raid warden; William Krueger, auxiliary police captain; F. J. Ludzack, chief messenger; Mrs. Leo Holland, chief emergency medical aid, and their staffs were on the job. Immediately, Chief Nihiser demonstrated the fire fighting equipment which is available for use in any emergency.

The auxiliary firemen, auxiliary police and air raid wardens took over immediately after the bombing and removed the victims from the bombed buildings. First aid was administered to the injured on the sidewalk.

The messenger service dispatched messengers to emergency medical headquarters at the Methodist church in Irvington.

Ambulances arrived with their first aid post and equipment and five victims, who apparently had serious injuries, were given emergency treatment. Later the victims were removed to the casualty station for further treatment.

A. C. Helms, zone coordinator; Mrs. Brandt Downey, chairman of the women's division of the city O.C.D., and representatives of the fire and police departments were there.

Mr. Hanna was well pleased with the demonstration and praised highly those taking part for their interest and thoroughness in doing their particular job. If an emergency develops, he feels as though the people of Irvington are fortunate in having such a splendid group of volunteer workers ready to carry on in an efficient and orderly manner.

VALUE OF DIPLOMA STRESSED BY MALAN

Asserting that he will look with disfavor upon any high school student's being gainfully employed more than a maximum of four hours of any school day while carrying a full school load of studies, Dr. Clement T. Malan, State Superintendent of Public Instruction, in a bulletin to all school administrators and employers in the state, stresses the value of a high school diploma to every boy and girl. The four hours will fit into industry's shifts, it is explained.

School administrators are urged to co-operate in adjusting school hours and schedules for the duration to meet the emergency needs of employers and the ambitions of youth, while at the same time complying with the existing child labor laws of the state and maintaining established school standards in Indiana. Dr. Malan points out that existing child labor laws require a certificate or work permit for every boy or girl employed between the ages of 14 and 18 years, whether in school or out of school.

The bulletin emphasizes the need of flexibility in school programs and the advisability of considering each student's work permit on an individual basis.

Treas. Dept. Urges Maximum Savings

The Treasury Department's War Finance committee has inaugurated a new and hopeful campaign to "Back the Attack" by stepping up the sale of war bonds through pay roll savings. Until recently, the Treasury sought to have every wage earner set aside 10 per cent every pay day. Now it has raised its sights. To each of us, it says simply—"Figure It Out Yourself." The appeal is a democratic one, of a sort to which Americans are certain to respond.

More than 700,000 individual Hoosiers are now buying bonds regularly through a pay roll savings plan. Perhaps not all of them can manage to meet the 10 per cent minimum goal. A great many of them, however, can manage to set aside much more. Some families have two, three or even four members bringing in pay checks each week. And with overtime work the size of the pay checks has increased. Depending on individual circumstances, it may be possible for such families to save as much as a third or a fourth of their aggregate incomes. The Treasury is asking them to forget the old 10 per cent minimum and to think in terms of a maximum—for everybody to invest every cent they possibly can in war bonds.

It is in the enlarged incomes of wage earners that the real danger of inflation lies, as former Food Administrator Chester C. Davis reminded us. The Treasury's job is not merely to raise money—it can do that readily enough from bonds—but to siphon off the steadily expanding excess buying power of the average American family, and to see that it is set aside for future use. Instead of current use. The best way of doing this is through the regular allotment of some portion of the individual's earnings as they come due each week. The allotment must be made in one way or another if value is to be kept in the American dollar. It now depends upon the good sense of the American people whether we can avoid compulsory savings. Let us get behind the new campaign!

Sell Waste Cooking Fats

Cans containing waste cooking fats should no longer be placed beside the garbage cans for collection, but should either be saved for some special salvage drive or taken to the butcher shop and sold. It is impossible at present to recover the waste fats at the garbage reduction plant and make them available to the war effort, said Fred Phillips, chairman of the Marion County Salvage Committee.

School Starting Leaves Jobs Open To Unemployed

With hundreds of youths who have held jobs in business and industry this summer preparing to return to school and college this fall and with the demands for workers to meet the needs of expanding industrial plants expected to reach a peak within the next few weeks, the Citizens Manpower Committee urges all unemployed men and women who can possibly take jobs to register immediately at recruitment headquarters, 20

N. Pennsylvania street. Two of the city's large industrial plants, Eli Lilly & Company and the Bridgeport Brass Company, have had representatives of their personnel departments on hand recently to interview directly registrants with qualifications for jobs in those plants. Other firms which have followed this procedure include Indianapolis Railways, Inc., the RCA Victor Division of the Radio Corporation of America, the Kroger Grocery & Baking Company, Basca Manufacturing Company and McQuay-Norris Manufacturing Company. Other concerns plan to have representatives at headquarters for the same purpose in the near future.

John A. Reis, Citizens Manpower Committee chairman, again stressed that the demand for workers is expected to increase steadily from now on and that the committee is depending on women to take paying jobs in increasing numbers. He renewed the appeal to housewives and other women not now employed to volunteer their services to business and industry in the war emergency.

"The more speed we put into production of war materials now, the sooner this war will be over and our boys can return home," Mr. Reis asserted. "We cannot afford to have it said that production here was permitted to slow down through any lack of workers."

Women without previous experience are eligible for employment,

as they will be trained on the job, Mr. Reis said. Registrations will be received at recruiting headquarters every week day from 8 a. m. to 5 p. m.

Bundles For Am. Needs Knitters

Hundreds of knitted garments must be made for our fighting men by fall to meet a requisition received by Bundles for America, Inc., for 900 knitted khaki articles for the Army, in addition to 10,000 turtle neck sweaters and 10,000 helmets for sailors stationed in Alaska. If the Indianapolis chapter of "Bundles" is to meet its quota of these garments before cool weather, more knitters will be needed to "carry on" through the summer. Who will count any sacrifice of comfort or vacation-time a small return for the tremendous sacrifices being made for them by our fighting men? Many letters expressing deep appreciation for knitted garments have been received by "Bundles" workers — some of them most touching and an inspiration to continued and extended effort.

There is plenty of free wool at "Bundles", 120 Monument Circle, for those who cannot buy the wool, so come in and get the wool for a sweater, a scarf, a helmet, socks or gloves. If you cannot knit, but would like to sew for the families of our fighting men, come

Are you willing to take a paying job to help win the war? Thousands of women are needed to keep our city's war plants producing at peak capacity and to maintain the operations of civilian business firms. Serve your country and your city in this emergency by indicating your willingness to accept employment.

in and work in our sewing room or get materials to take home for all kinds of clothing, comforts, quilts and afghans. Many garments are already cut out with instructions for making, pinned on them, waiting to be made — such attractive things cut from odds and ends of clean, good salvage materials gathered from homes and drapery and upholstering shops and large department stores.

All garments knitted by our workers in Indianapolis are made from wool purchased by this branch through the generosity of Indianapolis citizens. Requisitions for such garments are received from our National New York Headquarters and our Chicago Regional Office.

SUNDAY MUSIC HOUR PLANNED FOR MEN

The Illinois Street branch of the Service Men's Center will have "an hour of good music" every Sunday afternoon from 5 to 6 o'clock—a request by some of the enlisted men who enjoy symphonies, operas and art songs. The hour will be in charge of Mrs. Lenora Coffin, program annotator for the Indianapolis Symphony Orchestra, and Walter White, music critic for the Indianapolis News. The place is the new sun roof at the Illinois Street Center, where it is a least reasonably cool.

During this hour, open to all enlisted men and to Cadettes who are on duty, programs of recorded music will be arranged from suggestions made by the men. A public address system will be used, since the sun roof is large. There will also be brief discussions of the music played. To make this musical interlude informal, Mrs. Coffin and Mr. Whitworth will be present during the hour before the program, so that anyone who wants to talk about music—and what musician doesn't?—can do so.

WACS Needed For All Types Of Work

"A woman's place in the WAC may be in any one of more than a hundred useful and interesting types of work," Lt. Catharine C. Brown, of the Recruiting Office at 429 Federal Building, said today. "When she enrolls in the Women's Army Corps, her past training is taken into account, and, if she possesses certain skills or knowledge, she will be sent directly to active duty upon completion of her period of basic training. She will be 'on duty' at an Army post or station, doing work she knows and likes, and helping the Army to place another man where he is needed on combat duty."

"If she does not possess specialized training, the WAC may be sent to a WAC training school after she has received basic training. There she will be taught a valuable trade that she can use in helping the Army win the war, and which will ensure her a good job after the war."

"Members of the WAC are on duty now with the Signal Corps, the Corps of Engineers, the Medical Corps, the Army Air Forces, and other branches of the service. There are literally hundreds of thousands of positions with the Army that women can fill as well as men, and in many cases better," Lt. Brown concluded.

To be eligible for enrollment in the Women's Army Corps, a woman must be between the ages of 21 and 44, inclusive, a citizen of the United States, in good health, and with no dependents under 14 years of age.

PRESSING MACHINE GIVEN SERVICE CLUB

The Indiana State Industrial Union Council, CIO, has presented the Illinois street branch, Service Men's Centers, with a pressing machine and boiler. The Illinois street center, as you may know, has had facilities for pressing the clothes of the enlisted men, but Karl Baker, of the Kahn Tailoring Company, who has had charge of the pressing room, and who spends all his spare time there, has hitherto used the "old fashioned" heavy iron, which is effective, but slow.

Walter Frisbie, secretary of the Industrial Union Council, heard of Mr. Baker's plight — the demand for pressing is enormous — and set about collecting the necessary \$35.00 from the Council members. In order to buy the machine, Mr. Baker now can keep about 300 enlisted men neat in the 10 to 12 hours he spends in the Center every Sunday, and a corresponding number neat in the hours he spends there Wednesday nights, Saturday afternoons and Saturday nights.

Central Hiring Plan Now Used By USES

A plan for centralized hiring now in operation at the Indianapolis office of the United States Employment Service, enables persons applying for jobs to be interviewed on the spot by representatives of many major Indianapolis war industries. Harry E. Hoffman, Manager of this agency of the War Manpower Commission said today. The present plan of having employers' representatives stationed in the USES office make it possible for new workers, such as women who have never been employed before, to find out what jobs are open to them by going to one central location, eliminating much of the lost time which results when the applicant must go to each plant, he pointed out. The employer, also, can more quickly contact qualified persons who are interested in employment with his plant.

Additional thousands of local workers, both men and women, are urgently needed to man the war production plants in this area, he said, and everyone who can accept such employment is urged to make arrangements to do so now. The Indianapolis office of the USES is open from 8 a. m. to 5 p. m., Monday through Saturday, and representatives of industry interviewing at the employment office usually adhere to these same interviewing hours.

The Indianapolis office of the USES is open from 8 a. m. to 5 p. m., Monday through Saturday, and representatives of industry interviewing at the employment office usually adhere to these same interviewing hours.

Walter Frisbie, secretary of the Industrial Union Council, heard of Mr. Baker's plight — the demand for pressing is enormous — and set about collecting the necessary \$35.00 from the Council members. In order to buy the machine, Mr. Baker now can keep about 300 enlisted men neat in the 10 to 12 hours he spends in the Center every Sunday, and a corresponding number neat in the hours he spends there Wednesday nights, Saturday afternoons and Saturday nights.

A plan for centralized hiring now in operation at the Indianapolis office of the United States Employment Service, enables persons applying for jobs to be interviewed on the spot by representatives of many major Indianapolis war industries. Harry E. Hoffman, Manager of this agency of the War Manpower Commission said today. The present plan of having employers' representatives stationed in the USES office make it possible for new workers, such as women who have never been employed before, to find out what jobs are open to them by going to one central location, eliminating much of the lost time which results when the applicant must go to each plant, he pointed out. The employer, also, can more quickly contact qualified persons who are interested in employment with his plant.

Additional thousands of local workers, both men and women, are urgently needed to man the war production plants in this area, he said, and everyone who can accept such employment is urged to make arrangements to do so now. The Indianapolis office of the USES is open from 8 a. m. to 5 p. m., Monday through Saturday, and representatives of industry interviewing at the employment office usually adhere to these same interviewing hours.

UNION OF CLUBS STUDY COURSE OPENS ITS 15TH SEASON OCT. 6

Opening its 15th season with a coffee hour at 9:30 a. m., followed by the book review by Mrs. Russell Sanders at 10 o'clock Wednesday morning, Oct. 6, will be the study course, sponsored by the Irvington Union of Clubs.

Since this is one of the organization's most important contributions to the community in a cultural way, all newcomers to Irvington, as well as older residents, are urged to make arrangements for their ticket reservations now. Mrs. Paul A. Weir, Jr. 4246, is chairman of the ticket committee.

Luxuries Or Liberty? Make Your Choice In 3rd War Loan

Hoosiers are in the midst of their \$257,000,000 Third War Loan Campaign.

The Third War Loan is a swift, sure test of your common sense, your ability to "take it," and a true measure of your willingness to stand by your own flesh and blood, the men you have sent off to do your fighting for you.

At the Friday night bond rally of the Vonnegut Hardware Company's war bond rally \$10,500 in bonds were reported sold. The company band played and Harold Bevine, representing the Indianapolis Speakers' Club spoke.

Attack. Counter-attack. Attack. That's the way a war correspondent tells the story of what your relatives, your neighbors, your friends are going through at this moment.

But what about you? Is it at attack, counter-attack, attack for you on the home front? Are you fighting a battle to save every penny possible for war bonds to back up these men? Have you said, "Yes, we'll take a \$100 bond," when you should have said a \$1,000 bond? Each of us must do his share, and the share of each of us is everything we can do!

Your government is putting its objective before you three ways. First, in big round numbers like the \$15,000,000,000 national and the \$257,000,000 state quotas. Secondly, but more important, it puts the Third War Loan matter up to you in a purely personal way. It wants you to invest a minimum of an extra \$100 in war bonds—more if you can. Remember that "more if you can."

There's something awfully wrong with you if you won't put an extra rifle and clip of bullets into the hands of your men in the battlefield.

The slogan, "Back the Attack—With War Bonds," is addressed to you. Rich man, poor man, worker, boss, man, woman or child—you all have something to lend to your country at a time like this. You would not be worthy of the name Hoosier or of being an American if you did not have the fibre to trade luxuries or even bread for liberty.

WARREN FACES HARD '43 GRID SCHEDULE

Forty-seven boys have reported for football at Warren Central, which faces the toughest grid schedule in the history of the school.

The Gold and Black gridmen are coached this year by Vaughn Wood, former assistant coach and H. F. Schwemmer, former coach at Carmel high school.

Six lettermen form the bulk of the Warren Central eleven, which won six of eight games last year. Five of the lettermen are backfield members and the other is a line-man.

The Warriors lost their first football game of the season September 10 to Noblesville.

The remaining schedule follows: Sept. 17 Ben Davis (there). 24 Washington (there). Oct. 1 Franklin (here). 8 Shortridge (there). 20 Kirklint (here). 29 Br. Ripple (there). Nov. 5 Southport (here).

Miss Patricia Ann Gift, daughter of Mr. and Mrs. H. A. Gift, 902 Layman avenue, has gone to Buena Vista, Va., to attend Southern Seminary.

WAR FUND CAMPAIGN ASKS HR. PER MONTH FOR 12 MONTHS GIFT

The employed public will be urged to give to the \$2,000,000 United War Fund campaign on the basis of "one hour a month for 12 months." It is announced by drive leaders.

The "all inclusive" campaign in Indianapolis and Marion county is for services to the men in the armed forces, for relief and medical care of civilians of the Allied Nations and for needs of established "home front" agencies. Sixty-five agencies are included.

Sixty-five organizations are included and they will not conduct separate campaigns for money in this community.

Leaders point out that "giving on the basis of one hour a month for 12 months may not look like much, but the income from the plan will work wonders, especially in the service rendered to our fighting forces."

The USO War Prisoners Aid, United Seamen's Service and Indianapolis Service Men's Centers are among the agencies in the campaign. In the "Home front" list are the 37 Community Fund agencies, Jewish Welfare Fund and Marion County Civilian Defense Council. Allied War Relief agencies include the Russian, British, Greek, United China, Dutch and other recognized ones.

OCT. 3-9 IS FIRE PREVENTION WEEK

Mayor Robert H. Tyndall has officially decreed the week of Oct. 3 to 9 as Fire Prevention Week in Indianapolis.

Every citizen is being asked to co-operate for the "purpose of preventing distress among our citizens and for making a contribution to the winning of the war."

Already, the city fire department has made 2,740 runs so far in 1943, an increase over 1942. Seventeen persons have been killed in city fires this year, and 76 have been injured. Sixty-five per cent of Indianapolis fires are in dwellings, so that all householders have a definite responsibility in co-operating with city officials in Fire Prevention Week throughout the year as well.

He said that every party member must work and not just talk a good campaign. "Too many speakers give a flag-waving speech and then go home and sleep until 11 o'clock the next morning."

Henry E. Ostrom, G.O.P. county chairman, praised party workers for their efforts and urged that the party work for good government and live up to campaign promises.

HUGE PARADE TO PRECEDE INITIAL GRIDIRON INTRA-MURAL PLAY AT 2 P.M.

Howe's newly organized football team will make its formal debut following a huge parade on Saturday, and older residents of Irvington will sense a nostalgic feeling in the air as football again makes its debut in the community. Not since Butler college days has the gridiron program held the center of interest in Irvington.

The parade will include the football team in their new uniforms, the football queen and her four attendants, the Howe band, the drum majorettes, representatives from the Men's 400 Club and from the P.T.A., members of the student body and a bicycle escort.

The queen, Ann Pope, was elected by the 70 members of the football team, all of whom are to see action in Saturday's game. Her court includes Marilyn LaPorte, Gloria Backer, Joan Esch and Bette Meyer. The first part of the season will be devoted to intra-mural playing, and the schedule for later season games is being made out now.

Any Howe student may ride in the bicycle escort if his bicycle is decorated. Prizes will be awarded to the two boys and two girls whose bikes are the most decorative. Any pupils who wish to take part must be at the North Audubon Circle at 1 o'clock. From the North Audubon Circle, the parade will go south to Washington street, then west to Emerson. It will turn south on Emerson to Julian avenue and then onto the football field.

Brief dedication speeches will be given. The kick-off of the first football game will be at 2 o'clock.

HERE'S CHALLENGE TO IRV. MERCHANTS FROM THE REVIEW

Howe is Irvington's High School. How about putting your flags out and doing a bit of decorating with brown and gold crepe paper for their football parade Saturday afternoon.

There are 70 Howe boys out for that football team. Help Irvington get behind them and "our" high school!

IRV. BOYS, GIRLS CAN HELP SERVICE MEN

Irvington boys and girls, have you been wondering what you can do to help in the war effort? Several suggestions have come this week from the Indianapolis Service Men's Center, Inc., which are things you can do in your spare moments after school and on the week-ends.

There is a real shortage of card board, the kind which comes in men's shirts when they are returned from the laundry. These men use to pack recordings of their own voices which they make at the Service Club and send home to their families. Any cardboard that you can find around the house or neighborhood, just take to the Wabash Street Branch of the club, 128 W. Wabash street, back of the bus station.

Also the men need coat hangers, paper, card board, or wire. Mothers, won't you help by suggesting to your son or daughter that he or she can do something like this, when they ask you, "What can I do now?"

And, when you're ready to bring down the items to the club, don't forget that there are cookie jars, which empty almost miraculously when a group of hungry, homesick and lonesome young men pour into the club at all hours of the day and night.

If you or your friends can bake regularly for the boys, call Li. 4414 on Tuesdays or Fridays and ask for Mrs. Mathew Winters.

Silver Tea To Honor Officers

Our Lady of Lourdes Mothers' Club will hold its annual silver tea at 1:30 p. m. Friday afternoon, Sept. 24, in the school auditorium.

They include: president, Mrs. Harry Ritz; first vice-president, Mrs. George Hayes; second vice-president, Mrs. Howard McDavitt; recording secretary, Mrs. George Lawler; corresponding secretary, Mrs. Frank Vance, and treasurer, Mrs. Arthur Scanlon.

Survivors include a sister, Mrs. Pauline Betts, Woodbury, N. J., and a nephew, Kendall Betts, in the army.

**SERVICE LEAGUE, INC.,
TAG DAY IS OCT. 9**

Annual Tag Day of the Indianapolis Chapter of the National Women's Service League, Inc., is announced by the president, Mrs. Edw. V. Mitchell, for Saturday, Oct. 9. This is the one big money-making project of the year sponsored by the league. Since an increase in the number of enlistees of 350 to 500 a day is expected, beginning Oct. 1, there is an increasing demand on the canteen and Tag Day is an important day. Since Pearl Harbor the league has served sandwiches, cookies, coffee and milk free of charge to

enlistees, service men and personnel on the 4th floor of the Federal Building, sending baskets of foods and thermos jugs of coffee to the Marine Corps and Merchant Marines in the Kresge Building and to the Armory on Pennsylvania street. This is a very necessary service as boys come in from every part of Indiana, often leaving home at a very early hour. It is not unusual to find groups of boys sitting on the floor near the canteen waiting for a bite to eat before starting their examinations. These boys are facing a new experience and a hungry boy is not a very happy boy at any time.

The canteen is financed by war-minded groups in Indianapolis and vicinity who furnish the money for one day and do the serving. Since the league does not receive aid from any community funds and since the price of food has increased, it is necessary to make one big drive a year.

The tags are very attractive, the army and navy each having a special design, and every tag bought means a boost—physical and mental—for the boys just entering the service. Booths will be located in department stores, hotels and markets, while groups will be assigned to various districts and on streets.

Mrs. George L. Bradshaw has been appointed general chairman and has as her aids, Mrs. B. C. Milburn and Mrs. Roscoe R. Mills.

Mrs. Mitchell is chairman of hotels and the following members will assist her: Mrs. Park Akin, Mrs. P. M. Goldrick, Mrs. Lyman Thompson, Mrs. Forest E. Dukes, department stores: Mrs. Laura E. Krauss, Mrs. Harold Curtis, Mrs. H. A. Koss, Mrs. Cecil Gleckler. Clubs and organizations are under Mrs. A. R. Coffin, Mrs. Esther

**Crown Hill Marks
80th Anniversary**

The 80th anniversary of Crown Hill cemetery, where many of the heroes of all of our country's wars are buried, will be observed Saturday.

It was Sept. 25, 1863—the middle of the Civil War period—when Crown Hill was founded. The site was chosen because it was the highest point of land about Indianapolis, being approximately 200 feet above the level of White river.

Due to the present war, there will be no program to observe the 80th anniversary, but officers will review the cemetery's history and plan for the long future ahead.

It is pointed out that the financing of Crown Hill in 1863 and through the 80 years, has been one of its most remarkable features. It is incorporated under Indiana state laws as a non-profit organization. All officers serve without pay and no corporation or officer receives any compensation. The money beyond actual expenses of maintaining the grounds in proper condition must, by the articles of the association, go into a trust fund for future maintenance.

Located in the center of Crown Hill is a Federal cemetery where approximately 2,000 honored dead are buried. Bodies of heroes of 1776 and 1812 were removed here from other resting places. There are 1,500 other honored veterans buried in family plots, including 10 who have died in service in the present war.

Approximately 105,000 persons are buried in Crown Hill and officers estimated that it will be at least another 100 years before the 550 acres of ground are used. After that, the association's trust fund will assure protection and perpetual care for the grounds.

Service Centers Feature
Weekly Radio Programs

Radio programs of the Indianapolis Service Men's Centers, Inc. for next week include "War Comes to Cherry Lane" at 11:15 a. m. Friday over WISH, which includes chatter at the pantry shelf at the Illinois street branch of the club; Tuesday, Sept. 28, at 9:30 a. m. over WIBG, right and wrong way to write letter to boys overseas, also personalities in the club with Frank Benjamin and Miss Ruth Otte, in charge; Tuesday, Sept. 28, over WFBM, at 5:30 p. m. "Hoosiers at War," by Dr. Sumner Martin and Mrs. W. R. Higgins on the year-old birthday at the Roberts Park Service Center.

Misses Lora Catharine and Dorothy Eikenberry, 5455 Hibben, are attending Manchester College at North Manchester, Ind. Both girls are graduates of Howe high school, 1941 and 1943. Lora Catharine has spent a year and a half at Earlham college.

The Irvington Presbyterian Tuxis group will have a supper at the church on Sunday evening, Sept. 26, at 5:30 p. m. Each young person is to bring his own sandwiches and the hot dishes and dessert will be furnished. All high school age young people are invited. The regular Tuxis meeting will follow the supper.

Good Neighbors also share their Party Line....

The consideration shown by one party-line telephone user to another counts more than ever these days. Local telephone offices are crowded with calls, and material for more lines and equipment is not to be had.

Everyone in the family can help by:

Making calls only when it's necessary

Keeping telephone conversations reasonably brief

Allowing time between calls for others to use the line

We look forward to the day when telephone materials are no longer needed for planes and tanks, ships and guns, and can again be used to provide peacetime telephone service for the public.

**DON'T WASTE ELECTRICITY—
EVEN THOUGH
I STILL WORK
FOR MY LOW
PRE-WAR WAGE**

It is very easy to waste anything that is very cheap in cost — and Electricity is no exception. However, there's a war to win and now is no time for waste.

Today, as in the past, there is plenty of Electricity to serve your known needs in home, office, store and industry alike. But in an effort to save fuel, transportation, and manpower for Uncle Sam, we're asking you not to waste Electricity so we can help the other fellow who is also carrying a terrific war load.

Use what Electricity you need . . . but avoid waste by turning off your Electric appliances and lights when not actually in use.

Tower Studios Announce Specials For Anniversary

As an anniversary feature, Tower Studios, 11 S. Ritter avenue, announces two picture finishes, silver and gold portraits, as a special, according to William Mickler, 5315 Julian, owner of the store.

These specials are but two of the unusual finishes made by Tower Studios, which takes portraits, copies and restores old photographs, and takes in amateur work for finishing.

Mr. Mickler was formerly head of the third floor studio at the Wm. H. Block company.

Four years ago he came from Sacs, New York. He opened a studio on the Circle in the Tower building, October 1, 1942. As he lives in Irvington, he later established a workshop and studio in the Ritter avenue store.

The special anniversary finishes are offered at a greatly reduced price, as they usually sell for much more. If you are thinking of Christmas, here is a suggestion everyone will laud.

TRADITIONAL COFFEE- HOUR TO BE HELD

Coffee will be served at 9:30 o'clock next Wednesday, Oct. 6, at the Irvington Methodist church to all ticket holders for the lecture series, sponsored by the Irvington Union of Clubs, Mrs. Robert Mannfeld, social chairman, will be assisted by the Mesdames Otto Bakemeier, W. F. King, Harold L. Hasbrook, P. Waldo Ross and William A. Smith.

This get-acquainted hour has become traditional with the opening lecture in the study course, all years ago, so that newcomers to the community and new ticket holders would be made to feel at home. This social hour has proved quite successful for several hundred Irvington women have attended in previous years.

Following the coffee-hour will be a book review by Mrs. Russell Sanders. Mrs. Sanders has chosen, "Master of Dreams," by Maurice Dumesnil. Dumesnil wrote the book around the life of Claude Achille Debussy. It should be a review for Debussy was a temperamental and whimsical character and a musical revolutionist.

No French composer has ever quite matched his ability in a certain type of composition. Perhaps Debussy's best known composition is "Clair de Lune," heard so many times over the radio as the theme song for a certain popular serial program.

To illustrate Debussy's particular sphere in the realm of music, Miss Mildred Allen, Irvington pianist, will play three descriptive Debussy preludes, "Heather," "Homage to Puckwick" and "Fireworks."

The lecture series will include five other well known lectures, scheduled for later appearances. For tickets, see your club delegate or call Mrs. Norman Shortridge at Ir. 7070, or Mrs. Paul A. Weir at Ir. 4246.

School No. 57 Opens Day Care Center

A day care center has been started at School No. 57 for the children of school age whose mothers work. Hours are from six in the morning to 6 at night. If further information is desired concerning the day care program, call the school please.

Cottage Prayer Service

The Irvington Cottage Prayer group will meet at 7:45 p. m. Thursday, Oct. 7, with Miss Mary Johnson in her home, 5437 Julian avenue. Leader for the evening's discussion will be Mrs. Lou Brown.

ASSEMBLY TO GIVE HALLOWEEN DANCE OCT. 23 AT CIFALDI'S

Cifaldi's Barn will be the very appropriate setting for the first assembly dance, sponsored by the Irvington Union of Clubs, to be given at 9 o'clock October 23.

Committee chairman for the first dance will be the Mesdames Delbert Meyer and Sheldon Goodwin. Mrs. Russell Justice, chairman for the assembly; Mrs. Carl K. Edwards, co-chairman, and Mrs. Charles D. Wawter, president of the Union, will also attend.

The dance will be a Halloween Barn Dance. However, the committee is asking that no one come masked or in costume, believing this to be the best policy during war.

This year as much of the planning of the dances as possible will be turned over to the boys and girls themselves. One month the boys will plan the dance, refreshments and the serving. The next month the girls will assume these duties. Ideas and suggestions are solicited.

The assembly is open to all sophomores, juniors and seniors. Youngsters who are stale-freshmen now may transfer to the assembly in January if they have purchased a ticket for the ballroom dancing class this fall.

Tickets for the entire assembly may be purchased from any committee member or from Mrs. Justice or Mrs. Edwards.

WOMEN MUSICIANS, SOLOISTS ON CITY SYMPHONY PROGRAM

Two of the world's leading women instrumentalists, Ania Dorbmann, pianist, and Raya Garbusova, cellist, will appear as soloists on the Indianapolis symphony orchestra subscription concert series this year. The series of 10 pairs of Saturday evening-Sunday afternoon concerts will be under the exception of those to be the direction of Fabien Sevitzky, played Feb. 12 and 13 when Howard Barlow, famous American conductor, will conduct the local orchestra as its guest for the first time. On Feb. 12 Dr. Sevitzky will be in Vancouver, B. C. as guest conductor of that city's symphony orchestra.

The Indianapolis symphony orchestra's season ticket campaign is now under way, conducted under the auspices of the Women's committee of the Indiana state symphony society under the chairmanship of Mrs. T. Victor Keene.

A corps of volunteer workers is devoting its time to offering to the public concert series reservations at the season rate. The active campaign will close Friday, but season reservations will be available after that date, Mrs. Keene said.

Other soloists for the season include Joseph Szkest, violinist; Helen Traubel, Metropolitan opera soprano; Robert Casadesu, pianist; Carlos Salzedo, harpist; Carroll Glenn, violinist and Alexander Kipnis, Metropolitan opera company bass-baritone.

LINWOOD CH. TO DEDICATE ORGAN

On next Sunday the Linwood Christian church will dedicate their newly installed pipe organ. The dedication will take place during the morning worship which begins at 10:45 a. m.

A special program of music has been planned by the choir under the direction of Mrs. Fred E. Crostree, who is the organist and choir director of the church. Among the numbers to be sung are "Salutation" by Gaines, "Lamb of God" by Bizet, "Sanctus" by Gounod and a solo, "Father, Thou Who Are in Heaven," by Brown, to be sung by Mrs. Milton Lofton. Miss Mary Louise Martz and Mr. Verne Bailie will sing solo parts in the numbers by the choir.

The organ, which has been rebuilt and installed by the James P. Cave Company, was originally built by Hillgreen Lane and Company and installed in the Second Baptist church of this city, the building of which is now used by the Goodwill Industries.

A cordial invitation is extended to the friends of the community to join in this happy occasion for Linwood.

On Monday night, Oct. 4, the Linwood congregation will hold their annual meeting. A pitch-in supper will be served at 6:30 p. m. and followed by a short business session. Dr. William A. "BOARD-A-CHILD" CAMPAIGN OPENED BY CITY COUNCIL OF SOCIAL AGENCIES

"Have you a place for a child in your heart and home?" Indianapolis is a good American city. It's a city of comfortable homes and happy families. It's a city with a heart. Because of these fine qualities, it's a city that wants the best for its children.

But it's also a city with many children who are suffering from neglect and deprivation. These children are unfortunate victims of circumstances beyond their control. Divorce, desertion, illness and death of parents continue to leave children dependent and without adequate care. War has also created its share of child problems. Fathers are entering the services; mothers are working long hours in war industries; emotional disturbances arising from the tension of war have contributed to the breaking up of many homes.

In order to help meet the need for foster homes for these hundreds of boys and girls, the four child-placing agencies in Indianapolis and Marion county—the Children's Bureau, the Catholic Charities Bureau, the Lutheran Orphans' Home, and the Marion County Department of Public Welfare—are uniting for the first time in a community-wide "Board-a-Child Campaign." The project to secure foster homes is under the sponsorship of the Council of Social Agencies, an agency of the Indianapolis Community Fund.

Psychologists and sociologists have found that most children get along better in a normal home and family group than in an institution. Foster homes are not a new experiment in Indianapolis. For many years homeless children have been placed with private families who have derived genuine satisfaction and pleasure from giving an American boy or girl a good start in life.

Probably you have known some of these foster families in your own neighborhood. You have seen the children blossom out under their care and you have been impressed with the wonderful service these families were giving.

Families interested in opening their homes to a foster child are requested to fill in the coupon and mail it to the Board-a-Child Campaign, Council of Social Agencies, 925 Lemcke Building.

Miss Eileen Jones announces that the shop has been completely remodeled and redecorated in ivory. There is modern refrigeration for the complete line of fresh cut flowers which the shop will have.

There will be planted novelties and pottery. Miss Jones will have floral arrangements for every occasion as well as corsages, table settings and other novel arrangements.

She will specialize in weddings, giving personal suggestions and help for both informal and formal affairs. There will be delivery service, Miss Jones announced.

Miss Jones came from Greensburg seven years ago, and has been employed by Rooker's during that time. She lives with her mother, Mrs. Lena Brokemeier Jones, at 4806 E. Washington.

GOLDEN RULE CL. TO HEAR MRS. WAGONER

Mrs. Jean Brown Wagoner will speak on her new book, "Louisa Alcott, Girl of Old Boston," Sunday afternoon at the Downey Avenue Christian church at a dinner meeting of the Golden Rule class and its friends, immediately following the church service.

W. H. Colsher is president of the class and Mrs. Lydia A. Wampler, social chairman. Persons attending will bring a covered dish and table service. Interested friends are welcome.

Mrs. Wagoner's book, newly published by Bobbs-Merrill, has received favorable reviews from the critics and already has won the hearts of many lovers of the author of "Little Women."

The Evening Star, Washington, D. C., says of it: "This biography of the tomboy who grew up to become a rich and famous author was written especially for younger children, but older ones will enjoy it, too. Children who have not yet made the acquaintance of 'Little Women,' 'Little Men' and the other Alcott stories will find it an excellent introduction."

"Mrs. Wagoner has been telling children's stories for years. Her book reflects not only the skill born of that experience but the affection she feels for her subject."

The Tribune, New Albany, Ind., describes Mrs. Wagoner's volume as: "A delightful and altogether charming book for children."

The News-Sentinel, Ft. Wayne, Ind., comments: "Mrs. Wagoner writes with humor and sympathetic understanding of what amuses and interests youngsters. . . . (she) is free from that dreadful sin of writers of juvenile books—condescension. Her vocabulary is simple, but skillfully so, and you never feel that she is about to tap the reader on the head."

Mrs. Wagoner is the wife of Clifford E. Wagoner and is a member of the Downey Avenue church.

Bridgeport Brass Needs Womanpower

Additional men and women workers are urgently needed at once by the Bridgeport Brass Company ordnance plant, to help produce shells badly needed by our men at the fighting fronts. It is announced by John A. Reis, chairman of the Citizens Manpower Committee.

Pointing out that this plant is engaged exclusively in production of vital war material, Mr. Reis said there is immediate demand for women, especially for jobs on the inspection lines. This type of work requires neatness and careful attention to detail, qualities in which women excel, he stated.

No previous experience or special skill is necessary, as applicants will receive training while on the job and will be given work for which they are best suited. "Women who are not employed and who are able to work can give no more important service toward speeding victory for our country and its allies than by taking jobs to help produce vital weapons of war," Mr. Reis asserted.

Those who are willing to volunteer for such work may be interviewed directly by company representatives at Citizens' Manpower Committee headquarters, 30 W. Washington street, or if they desire, they can call at the plant personnel office, Holt Road and Minnesota street.

CHURCH FED. PLANS VISITATION OCT. 4-25

Through the Department of Evangelism of the Church Federation of Indianapolis and the Indianapolis Council of Church Women, a united church block-by-block visitation of both the city and Marion county is to be conducted October 4 to 25. This visitation is being carried out by Church Federation Districts. A committee from each district, made up of ministers, a layman, and a church woman, is arranging for enlisting the various churches to cooperate, and mapping out the blocks for this visitation.

The purpose of this visitation is: Through the Church Federation of Indianapolis, and the Indianapolis Council of Church Women, an effort is being made to have all of the churches in the city and county unite in a good will and neighborly visitation, inviting all the people living here to have fellowship with some church; to help people to find a church home of their own choice; to welcome and invite the many new-comers in our midst to affiliate themselves with the churches and church schools; to gather some simple data for the churches so that they may enlist the people in their activities and whenever possible, to convey a warm welcome which awaits them in the fellowship of some church.

Every family in the city is requested to welcome these church visitors who will make their calls from October 4 to 25.

PLAN HELICOPTER TRANSIT SERVICE

Indianapolis Railways Envisions Air Service Here

Indianapolis Railways took a progressive step toward keeping our local transit system up-to-date when it filed petitions with the various public authorities last week for permission to operate helicopters in Indianapolis and the surrounding community.

Helicopters are new-type aircraft that can arise and alight without a runway, thus making it possible for them to be used as transit vehicles in large cities.

In making the announcement of its plans Mr. Harry Reid, president of Indianapolis Railways, stated that the transit firm cannot inaugurate this new service until the war is ended and helicopters become available for civilian use.

It is thought that Indianapolis Railways is the first major city transit system in the country to seek authority for this modern type of transportation service.

Mr. Reid has consulted with Igor Sikorsky, famed aircraft designer and developer of the helicopter, and William B. Stout, helicopter expert, concerning the practicability of using this new type air vehicle in city transit service. Both were enthusiastic about the possibilities of the helicopter for city service, Mr. Reid said. Col. Roscoe Turner, famous aviation authority, is acting as technical adviser to Mr. Reid.

Mr. Reid says the Terminal Station can be used as a downtown terminus for helicopter lines. "Because of its location, the Terminal Station is ideal for this purpose," Mr. Reid asserted. Adv.

War Bond Rally To Celebrate Riley's Birthday

Indianapolis will mark Riley's birthday this year by serving as host to four authors—Franklin P. Adams, Ilka Chase, Carl Van Doren, and Cleo Dawson. They will speak at a "book and author" war bond rally, sponsored by the Indiana Library Association and Indiana Library Trustees Association, at the Murat theater on Thursday, October 7, at 8 p. m.

Tickets, which are obtainable at the Central Library or any of its branches, are free to purchasers of war bonds. Buy your bond at any issuing agency—a bank, theater, or department store—and ask the agent to credit the purchase to libraries. He will give you a proof-of-purchase slip, which you can exchange for a ticket at your library, either by mail or in person.

Branch chairmen at the East side branch libraries will be glad to answer any questions about the rally. They are Mrs. Frances Kilen, Irvington Library, 5427 E. Washington, Ir. 4339; Miss Jeanette Mathews, Spades Park Library, 1801 Nowland avenue, Ch. 3904; and Mrs. Grace Wilson, E. Washington Library, 2822 E. Washington, Ma. 6283.

Franklin P. Adams, well known for his part on radio's "Information, Please," is also compiler of a book of poetry, "Innocent Merriment," containing some of his own verse. Ilka Chase, actress as well as author, has written an amusing book of memoirs, "Past Imperfect." Carl Van Doren is a distinguished biographer, historian, and critic, whose latest book, "Matinee in January" was published earlier in the year. Cleo Dawson's first novel, "She Came to the Valley," will be published October 6. Books by the authors may be borrowed or placed on reserve at any branch library.

Several notable Indiana authors have been invited to the rally and will be introduced from the stage.

Manpower Office Moves, 30 W. Wash.

Recruitment headquarters of the citizens Manpower Committee, which has been located at 20 N. Pennsylvania street, has been moved to the first floor of the Indianapolis News building, 30 W. Washington street.

Representatives of several of the city's war industries were present when the new office was opened Monday to interview applicants for jobs. Among the plants represented are the Allison Division of General Motors Corporation, Bridgeport Brass Company, McQuay-Norris Manufacturing Company and Fairmount Glass Company. Unemployed men and women willing to take jobs in war plants to aid the war effort may contact these representatives and others by calling at the recruitment office any week day from 8 a. m. to 5 p. m.

John A. Reis, committee chairman, said that in addition to jobs in war plants there are available many openings of various kinds in other types of businesses.

"We have reason to believe there is a sufficient number of unemployed men and women in Indianapolis and nearby communities to take care of the urgent needs of local business and industry if they will volunteer to take jobs," Mr. Reis asserted. "A critical situation confronts the city unless these persons come forward and register for work. We cannot urge too strongly that everyone who is not employed and is physically able to take a job enroll at once at one of the places available for the purpose."

YORK BEAUTY SHOP ANNOUNCES COLD RAY PERMANENTS

York's Beauty Shop, 5521 E. Washington street, announces this week its new permanent—Cold Ray. This has been called the "miracle permanent" because it is given without heat and without a machine of any kind. It produces abundant soft, strong curls that are lasting and easy to style. There is no discomfort while getting the permanent because there is no painful stretching, no heat and no heavy weight, yet it takes no longer than an ordinary heat wave.

Machine and machineless waves are also given at York's. A new operator, Mrs. Helen Gordon, has recently joined their staff of beauticians.

Irv. Civic League Untangles Numbers

At the Friday night meeting, first session of the fall season of the North Irvington Civic League, the house numbering tangle of the east side was straightened. Plans to rechange the name of Ninth street, west of Ellenberger parkway, to St. Clair, its former name, were explained and met with approval.

In 1931 when Pratt, St. Joseph and St. Clair streets and Ellenberger avenue were renamed to establish Ninth street, the change resulted in confusing house numbers. With the change back to the original name, which will affect only six households, the confusion will be cleared.

Guests at the meeting concerning the number tangle were Arthur B. Henry, city engineer, and A. C. Helm, who has charge of the numbering work for the city engineer's office.

BUY A TAG; HELP SERVE SERVICEMEN

The annual Tag Day, sponsored by the Indianapolis Chapter of the National Women's Service League, Inc., will be held Saturday at which time tags appropriate for both Army and Navy will be sold in stores, hotels, markets and on streets by League members and groups who are interested in the campaign work of the organization.

There is no charge for tags—just free will offerings, but every tag will mean a sandwich and cup of coffee that will give a lift to an enlistee passing through the halls on the 4th floor of the Federal building or in the offices of the Marine Corps or Merchant Marines in the Kresge building or going through exams at the induction center on South Pennsylvania street.

The number of boys of the 17-year and Seabee classes now enlisting is increasing daily and the halls are crowded. This is your opportunity to serve other mothers' and fathers' sons and at a time when it is needed. Contributions made by groups serving a day at the canteen are not enough to cover the cost of the food and the deficit must be met by the league. This project has been recognized as a real service by officers and men at the recruiting stations and it must continue. It has been in operation since Pearl Harbor. Look for workers wearing the CANTEN badge.

Visit the canteen any day except Sunday where you will quickly see the work that is being done.

Mrs. Edward V. Mitchell is president of the Indianapolis Chapter of the league and Mrs. George L. Bradshaw, Mrs. B. C. Milburn and Mrs. Roscoe R. Mills, Tag Day General Committee.

MRS. DOWNEY HEADS BUSINESS ASSN. TO O.C.D. BLOCK PLAN MEET THURSDAY

Mrs. Brandt C. Downey has been named Co-ordinator of the Indianapolis Civilian Defense Block Plan by Mrs. Sheldon Sayles, acting director of the Marion County Civilian Defense Council Women's Division. Mrs. Downey will be in charge of the surveys and block visitations made periodically by the 5,000 block leaders of the women's division.

Mrs. Downey has been affiliated with the women's division since its inception in Dec., 1941, and as a member of the policy committee of the women's division has not missed any weekly meetings of the committee.

Her appointment followed the recent reorganization of the Civilian Defense Block Plan which was implemented for the recent house to house canvass in connection with the Third War Loan drive. In order to conform to the organization of the men's protective division in civilian defense the city was re-zoned into six zones. Under the former set up the block plan operated under four area chairmen and 47 district leaders, with Mrs. Downey and Mrs. Clayton Ridge serving as area co-ordinators. Mrs. Clayton Ridge recently resigned to engage in industrial war work.

Zone chairmen who have been appointed are Mrs. C. A. Crum, Zone 2; Mrs. Frank Lentz, Zone 3; Mrs. C. W. Spencer, Zone 4; Mrs. Allen Greer, Zone 5, and Mrs. J. Francis Huffman, Zone 6. A new zone chairman will be appointed to replace Mrs. Paul C. Hulse who resigned as chairman of Zone 1.

Preliminary to the next house to house canvass scheduled for the first week of November, there will be a number of district and zone meetings. A city-wide meeting of all zone and district leaders will be held Oct. 19 in the War Memorial building with Mrs. Downey presiding.

Mrs. Rumpler Gives Books To Butler

A gift of 15 books and a copy of the charter and by-laws of the old Northwestern Christian university have been given to the Butler library by Mrs. Maude Lucas Rumpler, 345 N. Ritter avenue, granddaughter of John Longley, one of the original founders of the institution, which now is known as Butler university.

The oldest book in the collection, "Missionary Labors and Scenes in Southern Africa," by Robert Moffat, is dated 1848, and others were published in 1851, 1856, 1861, 1870, 1871 and 1889. Some of the books are from the library of Mrs. Rumpler's father, Dr. D. R. Lucas, former pastor of the Central Christian church, and some from Mr. Longley's own library.

A biographical sketch of John Longley is the first in one of the books entitled "Biographical Sketches of the Pioneer Preachers of Indiana."

Contributions were made through Hilton U. Brown, president of the Butler university board of directors. Those by Indiana authors will be placed in the H. U. Brown section of the Butler library.

AID FIRE PREVENTION WEEK! MAKE YOUR ANNUAL HOUSEHOLD INSPECTION

Throughout Irvington and Indianapolis efforts are being made to observe Fire Prevention Week, which opened Oct. 3 and will continue through Saturday.

Carelessness and thoughtlessness on the part of individuals are the greatest dangers to safety from fire. Forming good habits which can be easily observed by all of us with little consideration will lower the fatality rate and property damage resulting from fire in the community.

Last year the Irvington fire station, No. 25, under Captain Claude Ream, answered 153 calls, averaging 12 1/2 per month. So far this year the station has answered 110 calls, averaging 9 2/3 per month, a much better record than last year.

With care this good record, showing improvement on the part of Irvingtonians, can continue throughout the year. Make this week a beginning and see that the average remains in the nine.

Last month Captain Freddie Harrell replaced Captain Ream. Let's show him that we've learned a few rules this past year.

Keep attic and basement clear of rubbish. The cardinal rule of fire prevention is good housekeeping. Housewives, that's up to you! Watch yourself and you'll find your family will take notice, too.

Rubbish should be kept in metal trash cans and burned regularly in a brick or metal incinerator. Fathers! You can help out here. Make this a regular Saturday "must." It will soon be a habit.

Your chimney should be checked for defects at least once a year. By this time, it should be done for this year. If it has not been done, do not delay another day. The same applies to the furnace, flues, stove or stoves.

Faulty wiring should be repaired by a competent electrician. Be careful with your electric iron. Always turn it off when not in use.

Do not keep gasoline in the home. Do not use gasoline for cleaning purposes. Be just as careful with kerosene.

Already 17 persons have been killed in Indianapolis fires this year. Seventy-five per cent of Indianapolis fires are in dwellings. Remember these figures when you are banking your fires for the night or leaving your homes for all day or evening.

Every fire we have only aids the Axis. Life and property are more precious than ever now. Take a check of those questionable items around your home which might cause a fire. Don't delay! Make this a real Fire Prevention Week!

HILLTOPPER WINS 2ND ALL-AM. AWARD

All-American honor rating has been awarded to the 1943 Hilltopper, yearbook of Howe high school, by the National Scholastic Press Association critical service. This is the second consecutive year that the Hilltopper has won this honor.

Qualities of rating were general appearance, special sections, editorial pages, editing and layouts. According to the comments made by members of the association's judging committee, the Hilltopper "has excellent planning, careful editing, active, life, personality, originality—ample proof that ideas, careful selection and presentation of worthwhile content, and painstaking workmanship, rather than large budgets are chiefly responsible for superior books."

Bob Woerner was editor and Joe Weaver, business manager of the '43 Hilltopper.

No. 82 To Hold First P-T.A. Meeting Wed.

All mothers and friends of the school are urged to attend, especially the new mothers as they will be welcomed at this time.

Officers for this year include: Mrs. Lloyd Jones, president; Mrs. Harry Stanley, secretary; and Mrs. John Salz, treasurer.

Miss Marjorie Glass is head counselor of freshmen girls at North- western university, where she is taking work on a masters in per- sonnel.

CITY OPENS DRIVE FOR SCOUT LEADERS
MONDAY, OCT. 11

Thousands and thousands of girls are waiting to join the Girl Scouts. They are eager to serve their country. They want, and need, the program which the Scouts sponsor. But before they can join, more troops must be organized, new advisers found, new leaders enlisted. Without the help of more adult volunteers it will be impossible to give Girl Scout training to all the girls who are asking for it.

Public officials and students of child psychology in wartime have recognized the need for extending Girl Scouting to even more than the present membership of over half a million girls. As long ago as 1941 President Roosevelt said, "I should like to see Girl Scouting made available to even more girls than are now participating in it."

Helping girls—tomorrow's wives, mothers, citizens—is a war job that needs doing now. The younger generation cannot be "frozen" for the duration. It cannot wait until we have more time to help overcome the hazards of growing up in the shadow of war. Young people cannot stand by waiting for the training and preparation needed for solving the problems of the postwar world. The time to protect and prepare our young people is today. Tomorrow will be too late.

Every woman—any woman—can serve girls through Girl Scouting. There's a volunteer war job for you — as troop leader, assistant leader, committee member, consultant. Will you help?

IRV. CAMP FIRE GIRLS ENJOY FALL OUTINGS

Indiana's crisp fall weather is an irresistible invitation to all outdoor lovers, and Irvington Camp Fire Girls' fall program has gotten off to a lively start with all sorts of outings—hikes, cook-outs and overnight camping.

Camp Fire Girls' Camp Delight, situated on R. R. 5 near Noblesville, was the scene of much gaiety, laughter and wholesome fun on the week-end of October 1-2 when 40 girls came for one and two-night camping trips. Howe Horizon Club, whose adviser is Mrs. Paul Clark, and the Shortridge Horizon Club, under the advisement of Miss Kathleen Klaber, were the high-school-age girls at camp. Mrs. Gilbert Richey's Own Kinyan-Ali Camp Fire group, which meets at the Irvington Methodist church, enjoyed the week-end together with some other Irvington Camp Fire Girls from Schools No. 58 and No. 85 under the leadership of Mrs. Everett Cathart.

Advantage was taken of the ideal weather by having outdoor cooking—wieners, roasts, hamburger fries and toasted bread twists. Three of the groups cooked their

breakfast outside, true camper style, on tin can stoves. Nature hikes and other outdoor activities completed the week-end program. In addition to the fun had by all, a worthwhile service project was carried out by the campers, a 40-hour project (one hour given by each girl Friday night) consisting of the folding, sealing and addressing of letters to Camp Fire Girls over the city, inviting them to the "Membership March" party to be held at Block's auditorium on Saturday, Oct. 9, from 10 until 11:30 a. m.

Some Camp Fire Girls, Mrs. Mae Traut's Wo-Ha-La-Choo group, which meets at the Emerson Avenue Baptist church, found it was not even necessary to leave the Irvington environs to have a good time out-of-doors. Ellenberger Park was the scene of a wieners roast last Friday afternoon, attended by some 30 girls.

Mrs. J. W. Graves' Ko-Wa-Ki girls, meeting at the Wallace Street Presbyterian Church, have been taking note of the natural beauty spots in their own neighborhood in their nature hikes.

Entertains Bride-Elect At Misc. Shower

Miss Anna Simmons entertained with a miscellaneous bridal shower at her home last Friday night. Guest of honor was Miss Barbara Jean Cotton whose marriage to Staff Sgt. William J. Kysar will take place Oct. 14 at Boca Raton field, Fla. The hostess was assisted by her mother, Mrs. Noah M. Simmons.

Guests were: Mesdames Roland M. Cotton, mother of the bride-elect; Reid Cotton, Merrill Duhamel, Harry Bayless, and the Misses Elma Baker, Miriam Holloway, Ann Pryor, Georganna Smith, Betty Newcomer and Margaret Harter.

UNION OF CLUBS SPONSORS NEW ROBES FOR "MESSIAH" PERFORMERS

"If you have ever served on the 'Messiah' committee you will know how much it is going to mean to us to own our own robes," reported Mrs. Arthur Robinson, chairman of the "Messiah" committee for 12 years in succession.

This is what the committee is planning for this year. Each previous year robes have had to be borrowed, hauled and often laundered for the chorus to use for the annual presentation of the "Messiah."

Last Summer Mrs. Charles A. Harris, Mrs. Louis W. Bruck and Mrs. Robinson, all committee members for many years, decided that a great load would be lifted if the Irvington Union of Clubs owned enough robes for the chorus. After confirmation of their plans by the board of the Union, they purchased the last remaining 240 yards of suitable material in Indianapolis, enough to make 60 robes.

Mrs. Robinson named Mrs. William Shreve chairman of the robe-making committee to serve with Mrs. Carl H. Hull as co-chairman, and the Mesdames Harris, Bruck, Robinson and George Duffy as the standing committee.

The robes will soon be cut, due to the generosity of George Duffy, a garment cutter by trade, who donated his services to this undertaking. Committee members are very grateful to him, for because of his skill, he is able to cut 12 garments at a time instead of a housewife's usual one.

Now, the committee only needs volunteers to sew. They feel that there are many Irvington women willing to donate a day's sewing to this worthy project or that there are those willing to make a robe in their home.

Mrs. Shreve announces that robe-sewing day will be Tuesday, Oct. 26, at 10 o'clock in the morning at the home of Mrs. Bruck, 52 S. Audubon road. Any person who wishes to sew all day is asked to bring her own sandwiches. Coffee will be served by the committee.

Mrs. Shreve is also asking for portable sewing machines to be used that day. Any person wanting to loan her sewing machine or wishing to sew, please call Mrs. Shreve at Ir. 7274, or call any member of the committee. The newness and the uniformity of the garments is expected to add much to the "Messiah" this season.

"MUMMERS" HOLD BIRTHDAY PARTY

The 50th anniversary of the founding of the Irvington Mummies, an organization of the Irvington Presbyterian church, was held Tuesday evening at the home of Mr. and Mrs. Howard E. Robertson Jr., 5869 Julian avenue. Mrs. James R. Loomis, one of the founders, was honor guest.

The Irvington Mummies is the second oldest dramatic group in the city, including religious plays in its program.

Rehearsals are getting under way for the play, "Family Portrait," which will be presented by members in November.

BUTLER U. RECEIVES \$4,000 KELLOGG GIFT

The W. K. Kellogg Foundation of Battle Creek, Mich., has granted \$4,000 to Butler university to be used for loans and scholarships in training medical technologists. Dr. M. O. Ross, university president, has announced.

Concerned by the lack of adequately trained medical technologists now as well as in the post-war period of progressing modern medicine and increasing clinical laboratories, the foundation offered the grant to induce entrance into the field and to aid those already in it to continue study.

Half of the \$4,000 is to be used for a loan fund available to any student enrolled in the pre-medical technology course at the university upon approval of the application by the university scholarship committee and recommendation of Dr. Nathan E. Pearson, pre-medical technology adviser.

The remaining \$2,000 of the grant will be awarded in scholarships, not to exceed \$300 each, to students who have completed the course in pre-medical technology and who have been accepted by a school of medical technology recognized by the American Medical Association. Scholarships also must be approved by the committee and recommended by Dr. Pearson.

The pre-clinical training program at Butler covers from two to four years of college work after which students take clinical work with the Medical Center of the Indiana University School of Medicine or the Methodist hospital.

The Kellogg Foundation has as its purpose the advancement of health, education and well-being of children. It carries on a national and international health program.

INDIANA'S RECRUITING CAMPAIGN FOR WAC PUT UNDER WAY BY GOV. SCHRICKE

The All-States Recruiting Campaign of the Women's Army Corps began Sept. 27. Gov. Henry F. Schricker, who directs the state-wide activities, has appointed Mayor Robert H. Tyndall honorary chairman of WAC recruitment for Indianapolis and Harry E. Yockey, Commander of the local Office of Civilian Defense, executive chairman in charge of plans for the city campaign.

Mrs. Yockey said, "Indianapolis has been assigned the task of assisting in recruitment of approximately 500 WAC's. This is our quota if we hope to replace a part of the 70,000 casualties suffered."

"The women of this city have never been known to fail," continued Mrs. Yockey, "helping out in an emergency is by no means a new role to Hoosier women. They have responded so well to calls for volunteer service in all our local projects that there is no doubt in mind but that they will rise to this urgent call from the Women's Army Corps."

In the WAC recruiting campaign which will close officially on Dec. 7, Mrs. Yockey has the following persons serving on his executive committee: William E. Munk, Mrs. Sheldon Sayles, Mrs. Ralph Showalter, Mrs. Wm. Kingdon, Walter Myers Jr., Christian Emhardt, Norbert Fich, Harry Houghtalen, George Baxter, Addison Parry, Ray Headlee, A. C. Helm, Mrs. Rudolph Grosskopf, Mrs. H. H. Arnholter, James L. Dilley, Roy Steele, Mrs. Chauncey Eno, Chief H. H. Fulmer, Col. Norman A. Nicolai, Chief Clifford F. Becker, Dr. Donald R. Adams, Glen F. Findley, Major Herbert Fletcher and Mrs. Brandt C. Downey.

Are Gift Packages Your Big Problem? Go To Service Club

Have you a question about Christmas gifts you may send your boys overseas? Are you puzzled about such important details as wrapping, addressing, packing, etc.? If these questions are on your mind, or if you have other gift problems, you may receive help at 128 W. Wabash street, Service Men's Center, from Oct. 9 until Christmas. Of course, you already know that the deadline for packages for men overseas in the Army is Oct. 15, but that packages for men in the Navy will be received until Nov. 15. But do you know that it is estimated that out of Indianapolis alone over 30,000 sacks of mail will be sent each week and that many gifts will not reach the boys because the boxes were not properly packed?

Members of the Perry Township War Mothers have volunteered to only to give you all the information available, but even to help you wrap packages.

In order to make the gifts look "Christmassy" donations of gift wrappings such as paper, ribbons, stickers and cards of all kinds will be gratefully received at the Wabash Center.

USO BRIGHTENS SERVICEMAN'S LIFE

More than two million service men and women are audiences each month before USO camp show troupes, appearing in camp theatres, in recreation halls in jungles, in spots cleared in the jungles and on hastily erected platforms in combat zones.

The report received by the United War Fund of Indianapolis says that audiences before USO camp shows totalled 13,800,000 in the last six months and the report covers only those shows given in continental United States and in Hawaii.

In the same period an undisclosed number of men saw performances in combat zones at hemisphere basis.

The USO is one of the major agencies of the \$2,000,000 United War Fund campaign which opens Oct. 25. The drive closes Nov. 9. Money to be raised is in support of the USO, for services to the armed forces, for "home front" needs and for medical supplies to civilians of Allied nations.

USO camp shows set up their theatres wherever possible, and some performances have been given in jungle clearings with machine-guns on duty to guard against snipers, while others have been given in the open air close behind the lines of slit trenches in theatres of operations.

"QUALITY IN ALL THINGS" IS THE SLOGAN OF ZIMMER PAPER PRODUCTS

Very few Indianapolis people realize that the wrapper on almost any loaf of bread they buy, is produced right here in our own city. Yet this fact is true and has been for several years. Bread wrappers have been the principal product of Zimmer Paper Products since the company was founded in 1930. Other products made at Zimmer's include waxed wrappers for all types of baked goods, candy, gum, crackers, yeast, soap, etc. They also make many items that further the war effort. These include waxed paper for the protection of army ration "C", sandwich wrappers for army camps, coated envelopes and carloads of packing material for domestic and overseas shipment.

The story of the progress of this company is steady and strong, rather than spectacular. Starting with just a handful of people and one small building in the Industrial Center at 19th and Martin, they have increased their personnel many, many times over and the plant has expanded to 35,000 square feet. The plant is tooled and equipped to produce three-quarters of a million pounds of paper per month when operating at peak capacity.

The company is owned and operated by Karl R. and F. H. Zimmer. It was depression born but thrived nevertheless and continues to grow and expand even though this era of wartime restrictions and shortages. One of the more recent developments of the company was the installation of ink-making machinery. With this they make their own ink for the printing of the thousands of various and sundry designs. The company has the record of being one of the largest users of electrotone printing plates in the state.

So the next time you buy a loaf of bread locally, remember that the wrapper quite possibly was produced by Zimmer Paper Products, and that some one of your friends or neighbors had a hand in that production.

FINAL PLANS MADE FOR A.A.U.W. EXHIBIT

Final plans for the eleventh annual Book and Toy Exhibit, sponsored by the Indianapolis branch of the American Association of University Women, which will be shown in Ayres' auditorium Nov. 8 to 13, are now complete and construction of displays is under way, Mrs. Walter L. Caley, general chairman, announced today.

The theme of the exhibit, "In War, In Peace, the Home is the Hub of Our Democracy," will be carried out around a miniature American Home, which will be the hub of a wheel, whose six spokes will form the displays representing the objectives of the American Home—recreation, health, literature, fine arts, religion, and education. In these six spokes will be found toys, hobby materials, games, sports materials, books, music, and art materials, and activity interests for children of all ages, from the dolls and woolly dogs for the youngest ones to the ventures into the miracles of science and mechanics for the older ones.

Special attention will be given to the problems of parents of older children, whose activities and thought-processes need an outlet in toys and materials with which they can construct something tangible or carry on experiments parallel to their school studies and activities. This is of paramount importance now in the nation-wide effort to stimulate youth activity within the home as one means of helping to combat juvenile delinquency.

One of the services it is hoped the exhibit may render, is that of a kind of Christmas shopping center for families whose parents are employed, and whose shopping hours will be definitely limited.

Several of the exhibit divisions will contain demonstration materials for the guidance of parents and teachers and others interested in the instruction of children in recreation, health, and religion. An entire section will be devoted to materials for parental guidance and education, which will contain recently published books, and hundreds of pamphlets obtained through the co-operation of leading child guidance, research, and health organizations throughout the United States.

Free guidebooks, containing information about the exhibit, will be given to all visitors, and hostesses from the American Association of University Women will be on the floor constantly to help by supplying any desired information. The exhibit will be open Monday evening, Nov. 8, and will be free to the public.

Sickels, supervisor of work with children, permission from authors is obtained and a schedule of broadcasts is made up to give the classroom teacher new story material she might not otherwise be able to find.

Small children also look forward to the Primary Rhythmic broadcasts presented twice a month on Wednesday by Mrs. Anne Morgan, superintendent of physical training. New methods, games, rhythmic and dances may be introduced or reviewed and the established tempo may be demonstrated to ten thousand children at one time.

The art department, under the supervision of Miss Marie Stewart, asst. director, presents a broadcast once a month on Wednesday for classes in grades five and six. An imaginary visit to foreign countries being studied in the art classes and in social studies, takes the children to centers of interest. By means of a sheet of drawings, sent a month in advance to the ten thousand children in these grades, the children are able to follow the direction as given on the radio. They take notes and directions for coloring these designs after the broadcast.

Another monthly broadcast presented Wednesday at 11:15 is the junior high school home room series called this year, "This Is Our Heritage." The general aim of the guidance series this year is to inspire respect and love for American traditions and ideals by celebrating American holidays thoughtfully and reverently.

The music series "Sing and Listen" for children in grades four through eight, is presented twice a month under the direction of Ralph Wright, director of music. Music of foreign lands, music of our Americas, and music to stimulate interest in the morning music programs heard in a large number of the elementary schools will be played. Records made in the schools where bands and choruses are in session are used frequently in the broadcasts.

The High School Hour heard every Tuesday and every other Thursday at 11:15 varies each week as one of the seven high schools present high lights of some school activity of special interest to patrons and pupils in that school. Large music organizations, speech choirs, and dramatic groups are given opportunities to broadcast.

A new weekly program this year, "The School Visitor," will take listeners each Friday to some one of the elementary schools where a visit will be made to a classroom. Here the visitor may see some regular class work, watch a play, talk with the teacher or children about some problem involving the school and the home, or the visitor may be present to help with a sale of war stamps.

The October schedule calls for a Riley Day program from School No. 9, a Junior Red Cross program from School No. 82, and a visit with the Judd family at School No. 81. This broadcast may be used in many schools to open their drives for the sale of war stamps and bonds.

Woman's Club To Hear Riley Guild Speaker

The Christian Park Woman's Club will meet at the home of Mrs. B. H. Beard, 365 S. Emerson avenue, Tuesday, Oct. 19, for a covered dish luncheon at 12:30 o'clock. Following the business meeting Mrs. Raymond Cook of the Riley Hospital Guild will be guest speaker. All members are urged to come and bring guests.

IRVINGTON UNION OF CLUBS PURCHASES SYMPHONY BOX FOR SECOND YEAR

An undertaking sponsored by the Irvington Union of Clubs, which proved successful as a new venture last year, will be repeated. Again the Union of Clubs has purchased a box at the Indianapolis Symphony to be at the disposal of the community whenever they wish to attend. The box is available for all the Sunday afternoon concerts.

After last year the club felt that the purchase of the box had promoted a very worthy and cultural civic interest which extended the activities beyond the boundaries of the Irvington community. By purchasing the box for the entire season, the Union is able to offer the community the advantage of box seats at a price half the usual amount when purchased at the box office. Through this medium last year 60 people attended the symphony concerts who otherwise might not have had the opportunity.

Several times during the year different clubs and organizations purchased seats in the box and through the USO sent soldiers in their place. This opportunity for doing something nicer than usual for the soldier is still open to any organization interested. Letters from the USO, and soldiers themselves, proved how much this generosity was appreciated.

The sale of these tickets is going even faster than last year, so it is advisable, whether interested in attending in person or in sending a soldier or two, that reservations be made early.

The first Sunday afternoon concert will be Nov. 7 at the Murat theatre. Fabien Sevitzky, who is serving his seventh year as conductor, announces an interesting group of new musicians. In the opinion of many, the artists scheduled to appear this year are superior even to those brought here by the symphony in the past.

The symphony box committee, as appointed by Mrs. Charles D. Vawter, president of the Union of Clubs, includes: Mrs. H. L. Chaney, chairman; Miss Mildred Allen, Mrs. Francis Helkema, Mrs. D. J. Hendrickson, Mrs. Robert Hoffman, Mrs. Albert Holmes, Mrs. Harry Ware, Mrs. Wilson T. Patterson, Mrs. James F. Foulke, Mrs. W. N. Frosch, Mrs. H. O. Pritchard and Mrs. T. F. Fleck. Two women of the committee will serve in charge of the sale of seats for each concert. Those interested in the purchase of box seats for the concert Nov. 7 should call Mrs. H. L. Chaney, Ir. 9957, or Mrs. D. J. Hendrickson, Ir. 9278.

Sergt. James McAfee, son of Mrs. Margaret McAfee, 4919 University avenue, who is now stationed at Camp Atterbury, has been authorized to wear the American defense service medal, which was given to him for his pre-Pearl Harbor service in the army.

WHY VANDALISM AT HOWE?

Howe high school's new football goal posts were found Monday morning lying flat on the ground, a result of Sunday night vandalism.

Since the school had no facilities for obtaining goal posts, Sam Jacobs, father of one of Howe's football players, donated and set up the crossbars. Howe students and patrons can see no reason why anyone would commit such an act.

SEND YOUR TROUBLES DOWN THE DRAIN

"We can take care of all drain trouble," the Sheridan Hardware Company, 6125 E. Washington street, announced today, "with our purchase of an Electric Eel." According to Mr. Harlen, owner and manager, this is the most efficient machine for cutting roots and other obstructions from sewers. It removes grease from drains from 1 1/2" to 6", restoring them to their original dimensions.

The secret of this Electric Eel is its flexible cables, which operate without danger of damage to tile, going through traps to the main sewer.

With this modern convenience, there is no excuse for your yard to be torn up by dug-up sewers and other obstructions from sewers. Not only are you saved the expense of having to fix up your yard, but the actual cost of having the Sheridan Hardware Company clean out all pipe and sewer obstructions will fit into your budget.

Don't wait until your rugs or ceilings are in danger of being ruined by stopped up drains. Call the Sheridan Hardware, Ir. 0014, now.

Indianapolis Civilian Defense goes on the air over radio station WISH, Saturday (Oct. 23) when Harry E. Yockey will deliver a personal message to all O.C.D. volunteers from 5:15 to 5:30 p. m.

The broadcast will consist of an address by Mr. Yockey, local O.C.D. commander, special announcements in the form of news about events in all civilian defense districts, and music.

Plans for continuation of this form of communication with all branches of O.C.D. have been made for every Saturday. During these programs there will also be special interviews of interest to all city residents.

Marion County and Indianapolis Civilian Defense, who share the Saturday broadcasting time donated as a public service by station WISH, have agreed to an interrupted schedule devoted to problems and timely subjects being taken up by local O.C.D. headquarters.

"The ideas and plans to be outlined in these broadcasts," said Mr. Yockey, "are highly important to civilian defense workers and Indianapolis citizens. Close attention to these messages and news items will keep the residents of our city informed about the activities of their protective forces."

Mr. Yockey added, "People of Indianapolis will more fully understand the views and aims of civilian defense and will learn how well prepared are the local forces, to serve in the event of any disaster or emergency if they spend this time on Saturdays at their radios."

One week after word that he had won the Air Medal for service in the South Pacific, parents of Robert E. Armstrong, Jr., 835 N. Audubon road, received a cablegram informing them he had been promoted from second lieutenant to first lieutenant in the army air forces.

Lieutenant Armstrong, a graduate of Arsenal Technical high school and a former student at Purdue University, was commissioned and received his silver pilot's wings at Luke field, Arizona, Jan. 4 and has been overseas since Feb. 10. He is pilot of a pursuit (fighter) ship.

Flyer Home from South Pacific
Captain Thomas R. Mutz, 23-year-old Marine Corps flyer who survived an air battle in which two American pilots attacked a force of 130 Jap Zeros in the South Pacific last August, came home to Indianapolis Monday night for a month's rest. He is visiting his parents, Mr. and Mrs. Frank M. Mutz, 706 N. Riley avenue.

With more than a year of service in the fighting zones in which he piloted 225 hours of combat flying, the flyer has received the Purple Heart and the President's citation and has been recommended for the Distinguished Flying Cross and the Air Medal.

Robert H. McCoy, 30 S. Bolton avenue, was among four Indianapolis young men at the Great Lakes naval training station who recently won promotions as a result of civilian technical training.

Dorsey Davis King, 1029 Drexel, has been promoted from first lieutenant to captain.

U. OF C. MEMBERS SET 4-STAR RATING IN DONATING SERVICE CLUB COOKIES

Did you know that:
The cookies donated through the Irvington Union of Clubs are the only contributions of cookies that have been received by the Service Men's Centers for many week-ends?

That the Service Men's Centers depend upon the Irvington Union of Clubs for their entire week-end supply of cookies and that the cookie jar is entirely empty by Monday?

That there is a long line of soldiers who wait on Friday nights for these Irvington cookies because they say "they taste like home?"

That the activities of the Service Men's Club committee of the Union of Clubs have been outstanding in comparison with other organizations in the city?

Such were the statements on the "cookie jar" project released by Mrs. Dorothy Buschmann, executive secretary of the Indianapolis Service Men's Centers, Inc. Mrs. Paul E. Crosier, serving as chairman of the Service Men's Committee of the Union of Clubs for the second year, announces that during the months of June, July and August, 1,521 dozen cookies were donated by Irvington women through the Union of Clubs.

Serving with Mrs. Crosier are the standing committee members: Mesdames Walter Montgomery, William J. Betz and F. E. Dukes. Each Friday of the month two Irvington clubs donate these cookies. Any club member who wishes to do so may go to Dirk's Market and receive, point free, the shortening and sugar for her batch of cookies. However, she must pay cash for her purchases. Once each month Mrs. Crosier checks points with the grocery, takes the number of points used to the Service Center, which balances them with the number dozen cookies received, then they in turn write a "check" to the Dirk's Market for the points.

In this manner no housewife is asked to use her own precious points. Only time, a little effort and generosity of spirit is asked. The clubs responsible are asked to bring their cookies to Stewart's Book Store before four o'clock on Fridays, where members of the Service Club committee are waiting to check and receive the cookies. It is advisable to write the full name of the donor, number dozen of cookies and the club represented on the outside of the package. Mrs. Walter Montgomery has been never failing in her readiness to deliver the cookies each week to the Service Center.

Mrs. Charles D. Vawter, president of the Union of Clubs, wishes to congratulate the Service Club committee on its excellent work, and to thank all club members who have donated cookies so generously.

She also expresses and hopes that they will continue their good record for she says, "It is the little, individual contributions to the war effort that is helping to win the war. We must not let up in our efforts for even one day. This contribution is within the scope of any housewife and is a most important one."

Mrs. Crosier joins Mrs. Vawter in her thanks and expresses gratitude to the Dirk's Market, Stewart's Book Store and the Irvington Bakery for their hearty cooperation with her in this undertaking.

The schedule for the next four weeks is the following:
Oct. 29 - Irvington Coterie, Irvington Social Study.
Nov. 5 - Friday Social Club, P.T.A. No. 77.
Nov. 12 - Child Conservation League, Irvington Woman's Club.
Nov. 19 - W.C.T.U., Irvington Home Study Club.
Nov. 26 - Open date - I.U.C. Board Service Club Committee and volunteer donations.

Mrs. W. J. Betz will serve as chairman for the month.

The Stork Column
Lieut. Robert C. Wilson and Mrs. Wilson of Memphis, Tenn., are the parents of a baby daughter, born Oct. 24. Mrs. Wilson was formerly Miss Barbara Doun of 322 Downey avenue. Lieut. Wilson is a pilot in the Army Air Corps, at present in training in the Instrument School at Memphis, Tenn.

Mr. and Mrs. Keith Otto are the parents of a son, Thomas Lamson Otto, born Oct. 17 at St. Francis hospital. Mrs. Otto was formerly Miss Phyllis Lamson.

Services Held For Robert Mikesell
Funeral services for Robert H. Mikesell, 40 years old, 24 N. Ritter avenue, were held Monday at 1:30 p. m. in Shirley Brothers' Irving Hill chapel. Burial was in Memorial Park cemetery.

Mr. Mikesell died Friday in the City Hospital following an illness of 10 weeks.

Born at Hollandsburg, O., he was a graduate of the high school there. A plumber, he had lived in Indianapolis since 1922, except for several years spent at Miami, Fla.

Survivors are a daughter, Dorothy Rose Mikesell; the parents, Mr. and Mrs. L. V. Mikesell; a brother, Donald L. Mikesell, and a sister, Mrs. Janette Carney, Indianapolis.

REVIEW TO STOP PUBLICATION

The Review, after eight years as Irvington's town crier, ceases publication with today's issue.

THE EXPLANATION

When Ann Hall, owner and editor, enlisted in the WAC in October, 1942, I (having worked on the staff since the beginning) was ready and willing to take over, and, I am happy to report, The Review has continued to be successful both from the standpoint of readers and advertisers.

However, I have two small sons who are requiring more and more of my time. It is, as you well know, almost impossible to get help—and perhaps I should omit the "almost." When it comes to a decision between two small boys and a business (even a newspaper) naturally the business must give way. 2nd Lt. Hall, WAC, agrees with me that the paper must go.

The Review has been a great deal of work and more, fun. We are sorry to have to write this final "30" but are glad that our paper is dying with its boots on—still going strong.

To the many Irvington readers who have looked forward to its coming each week, to the Irvington men in service who have enjoyed its news from home, to the advertisers who made the whole thing possible by giving it their business, to the printers of Western Newspaper Union who have always turned out a good job—we say, "Thank you most sincerely, one and all!" My special thanks also to my assistant, Agnes Ostrom, for carrying on so well under difficulties.

After that happy day when the men behind the guns come marching home again, and the WACs come marching home behind them, maybe there will be an Irvington Review again. But that we don't know—we haven't started planning for the peace. Just now Lt. Hall has another job and I have another job to do, so—The Irvington Review is a war casualty.

JANE GABLE, Editor.

LUDWIG TO DISCUSS GERMAN PEACE IN NOV. 4 LECTURE AT ATHENAEUM

Emil Ludwig, one of the greatest of German-born writers, who recently outlined for the Foreign Affairs Committee of the United States Senate a program for administration of Germany and other enemy territory after the war, will deliver a forceful lecture on the subject, "What kind of peace shall we make with Germany?" when he appears at the Athenaeum on Nov. 4 at 8:00 p. m.

Ludwig, who fled from his native Prussia to Switzerland and came to the United States in 1940 because he felt that the arm of Hitler was strong enough to pluck him from the neutral mountains, is suggesting that his native Germany should be divided: Let the warrior race of Prussians rule the north be politically free from the south that gave the world Goethe and Beethoven. Thus separate the two German strains would balance.

Ludwig, noted for his remarkable studies of Napoleon, Bismarck, Lincoln, Goethe and Stalin, has been lecturing on the postwar division of Germany at the Military Government School now being conducted by the U. S. Army at Charlottesville. His proposals have been favorably looked upon by many prominent Americans.

Emil Ludwig began writing plays and verses at 15, but he studied law and entered business, and it wasn't until he was 30 that he attempted serious prose writing. This began with his biography of Bismarck, when he developed a new type of biographical

LET'S HAVE FUN ON HALLOWE'EN But Let's NOT Destroy Property

Everyone can have a good time without being destructive, so let's resolve now not to let the Halloween spirit run away with us. Everyone is entitled to fun and frivolity on this night, but don't spoil a neighbor's good time by ruining any of his property. Here in America we won't find gapping bomb craters or smoldering buildings, and we don't want to find them either. So don't be in the least bit destructive, because if we don't know enough to let other people's property alone, we might just as well join the Axis in their all-out campaign of destruction, vandalism and cruelty. Don't be Hitler's agent. Don't destroy property!

Another first performance, that of the "Magic Window Suite" by the Brazilian composer Villa-Lobos, makes this a noteworthy program, and additional numbers will be "Suite for Strings" by Corelli, and Brahms' Symphony No. 1 in C Minor.

The following Thursday, Nov. 11, is the date of the first Pop Concert of the season, at which time Fritz Siegal, concertmaster of the Indianapolis Symphony Orchestra will be soloist. He will play Mendelssohn's Violin Concerto. The balance of the program will include "The Old Glory" written by Dr. Sevitzyk, "Praeludium & Allegro" by Kreisler and arranged by Dr. Sevitzyk, the first and second movements from Brahms' Symphony No. 1 in C Minor, and the popular "Nutcracker Suite" by Tchaikovsky. HORNETS SCORE 1ST FOOTBALL VICTORY

By MELVIN SKINNER
Howe's Hornets took their first victory of the season Tuesday at the expense of the Silent Hoosiers by a 25-19 count. Shifty winds, occasional rain, and a muddy field slowed up the game somewhat.

Howe's attack was paced by Lewis Larsson who scored three of the home team's touchdowns, the first on a line plunge and the other two on passes from a short run. Dave Wyand scored a point after touchdown following Larsson's first score.

Roy Marks, Frank Kaiser and Hatrak scored touchdowns for the Deaf School. Illa Walker followed Hatrak's score with an extra point.

Each team was trying for its first victory of the season, and even though the visitors were first to score, the Hornets were able to come from behind in the second quarter to lead the remainder of the game.

Scoring by quarters:
Howe 0 13 6 6—25
Silent Hoosiers—6 0 6 7—19

Mrs. Anna McIntosh of 4619 E. New York has returned home after spending several days in New York City with her son Louis, who is stationed there. Mrs. McIntosh was accompanied by her sister, Mrs. E. L. Funck, and Mr. and Mrs. J. M. McIntosh.

IRVINGTON MUMMERS WILL PRESENT "FAMILY PORTRAIT"

The Irvington Mimmers will present the 1939 Broadway success, "Family Portrait," by Lenore Coffee and Wm. Joyce Cowen, Tuesday evening, Nov. 30, at 8:15 in the Irvington Presbyterian church. The production is being directed by Mrs. James R. Loomis. "Family Portrait" was first produced at the Morosco Theater in New York. The play deals with the reaction of Christ's family toward his life's work. The reviews of the New York critics were unanimous in their verdict that this play was one of the finest ever to be produced on Broadway.

The New York World Telegram said, "It is beautiful and dignified. It breathes the spirit of humility and tolerance. It is reverent in its approach to those whose personal lives are so closely bound up with that of the Founder of Christianity. But it is also pitiless in its exposure of the blindness and faithlessness even of some of those who professed to follow Him."

The New York Herald-Tribune: "An honest and straightforward simplicity, a tenderness of feeling—the authors are concerned with telling a great and poignant story in simple and earnest fashion."

Marian Robertson is playing the leading role in the part made famous by Judith Anderson. Other members of the cast are Alice Clark, June Fink, Louise Hamilton, Harriette Baker, Harriette Hester, Mildred Kingsbury, Jeanette McPeethers, Jane Gable, Jean Farson, Jane Wright, John Gooch, Robert Greenleaf, Don Hopping, Gus Klippel, Howard Robertson, Ed Hecker, Seward Baker, Harold Wright, Oscar Erickson, John Clark, George Gable, Merrill Hamilton, Darrell Gooch and Jack Huston. Irvingtonians should not pass up the opportunity to see this outstanding dramatic play. Tickets may be obtained from members of the Mimmers, Eileen's Flower Shop, Broadrick's Bakery and at the performance.

REMEMBER THE DATE—TUESDAY, NOV. 16TH!

1ST NIGHT LECTURE SET BY U. OF CLUBS

The second lecture Wednesday evening, Nov. 3, in the series sponsored by the Irvington Union of Clubs is one of the two lectures scheduled for evening session. The committee members who planned the series explain that the two night meetings were so scheduled that those employed during the day and husbands of ticket holders might attend. The second evening lecture is scheduled for April 12.

Dr. A. Dale Beeler, well known Indianapolis lecturer and professor of history at Butler university, will appear as lecturer at 8 o'clock Wednesday evening at the Irvington Methodist church.

He will discuss "Prospects for Peace" and will include a review of current war trends toward potential peace.

The lecture is open to the public.

"FILL WAR CHEST" IS '43 UWF DRIVE GOAL

"Fill the War Chest to overflowing."

This is the hope of several thousand volunteer workers who are pounding the pavements, ringing doorbells and soliciting employees in the interest of the \$2,000,000 United War Fund drive.

The campaign opened last Monday and continues through Nov. 9. It is in support of 65 agencies, for services to the armed forces at home and abroad, including the USO, for "home front" needs and for medical aid to civilians of allied nations.

A huge War Chest, with a large glass front, is now on the south steps of the Soldiers' and Sailors' Monument and marks the progress of the drive. As money comes into report headquarters in the Claypool hotel, member banks of the Indianapolis Clearing House will deposit a similar amount of money in the War Chest which is heavily guarded by soldier and sailor military police.

"FAT FRIDAY" MAKES INDIANAPOLIS DEBUT

Friday isn't Friday any more—at least not in the grade schools of Indianapolis and Marion county. It's "Fat Friday."

Now that the students of both the public and parochial grade schools are engaged in the waste fats salvage campaign, housewives of Irvington can be assured that their children—or even the boys in the next block—will be clamoring for whatever grease remains after 16 points of bacon has been fried.

"Zero Hour" for those folks living north of Washington street will be Nov. 5, when the first "Fat Friday" collection will be made in the northeast district of the county.

On "Fat Friday" the children will take their collected fats to their schools where large metal barrels will be deposited by a rendering plant. Any type of container is acceptable for carrying the congealed greases, although tin or cardboard is preferred to glass. (Tin cans used as containers will be processed at the rendering plant for the tin salvage campaign, incidentally.)

This campaign is under sponsorship of the P.T.A. and similar organizations and these groups will be paid the regulation price for the waste fats.

After Nov. 5, the collection will move into the southeast section (south of Washington and east of Meridian street) on Nov. 12; then on the 19th, to the southwest; and on Dec. 3, to the northwest; and back to the northeast and Irvington on Dec. 10. No collection will be made on Nov. 26, as school will be closed.

Mr. Dorsey Honored

When past presidents of the Indianapolis Speakers Club were honor guests at a meeting held Oct. 22 at Hotel Washington, Paul E. Dorsey, past president of the Irvington Toastmasters Club was among those honored. He represented the present Class No. 33, taught by Bert C. McComman, founder of the Speakers Club. Mr. Dorsey made a short talk.

IRVINGTON GIRLS ON DRIFT STAFF

Two Irvington girls have been named assistant editor and business manager of the Drift, yearbook put out at Butler University. Kathryn Clyde Holder has been named assistant editor of the publication, while Beth Henderson was named business manager.

Other Irvingtonians on publications at Butler University include Laura Hart, society editor of the Butler Collegian, school paper put out four times a week, and Marilyn Bohmer, advertising manager of the Collegian. Laura Hart is also a member of the student directory staff and Joe Cottom is editor.

Laura Hart has been named secretary for the Butler University War Emergency Council, which is a committee of faculty and a few student representatives on the campus. The activities of the organization in the past have been to conduct the world student service fund, a war bond and stamp drive in connection with the national drive, and at present they are making plans for a scrap drive to be given in the near future. For two years Miss Hart has been president of the Butler Correspondence Association, whose purpose is to write to former Butler men now in the service. Miss Hart is acting as president at the present time. Its work is also connected with the War Emergency Council.

Your Idle Electric Appliances CAN MAKE OTHERS HAPPY

There Are Many Families Who Desperately Need Any Table Appliances You Can Spare

Now is the time when those old Electric appliances of yours can really work for victory. You probably have out-of-service appliances tucked away in the attic, in the cellar, or in a pantry shelf, or in one of a dozen other out-of-the-way places. Get them out of hiding and bring them in and see if they can be put in usable condition.

If your appliances can be satisfactorily repaired

1. We will recondition them for your own use, or . . .
2. You can sell them to us for cash and we will recondition them for resale, or . . .
3. We will purchase the appliances and give you an allowance in the form of a credit memorandum, redeemable at the war's end on the purchase of a new Electric appliance.

AVOID ANY WASTE OF Electricity
Uncle Sam is asking everyone to cooperate in the 7-Industry Conservation Program to save fuel, transportation, critical materials and manpower. As an Electric user, turn off lights and appliances when not actually needed. Please help by eliminating all waste.
